I'm sure all of the serverowners would love to donate a little bit of BW to DDOS jsxkuele's site offline/over his datalimit (aka very expensive joke)
I guess it is renegadeskins.net btw, from what I could quickly google.

Goztow gave a link in his post, so the googling was a bit unnecessary.

I'm administrator @ www.renegadeskins.net

Ok to clear up some things; we do not blame mrackz for posting that, he can do that if he wants to at our website. Please don't blame the website because of one person. We have a great site and do not wish to create any form of creating "enemies". I'll send mrackz a message to please not talk about hacking other sites or renegadeforums, etc.

We live in peace with you!

JsxKeule, your post is ridden with lulz. Nobody was crying about the profile, it was just a comment. Also, get of Crysis' dick. You are going to bash cAmpa, which if I remember right, is a well-respected person in the Renegade community, just because he doesn't like crysis. Remember, you are also the one that posted a whole topic about your leaving Renegade, so don't even think to try and get out of this one by saying you were only laughing because you don't like a few people here.

that you're mentally handicapped and incapable of making sense even if I were to have some
magical translator that decoded your words.

And I don't care if your primary language is English or not- I know shittons of Germans that can make a fuckton more sense than you, so that's no excuse to use google translator to translate English to Japanese to Chinese to German to English again.

You're missing the point. That isn't an excuse. This isn't a German forum. On this forum, people speak English. If you can't speak English, you can get the fuck out. You aren't owed anything, least of all special treatment just because you can't communicate with the rest of us for some unexplainable reason.

So basically you like it when lots of innocent/non related people suffer for one you don't like? Also
apparently you think it's "cool" to use someone's stuff (bandwidth in this case) and abuse it for no
good reason.

Quote:

and no i dont think its funny at all to hack other sites

Quote:

Of course you don't need to explain why it is so much better. The hell with decent arguments and

examples. Oh and having loads of (empty) categories and subsections on your forum is "OMGWTFBQQCOOL" as well of course.

Quote:

and when i get banned for this comment just cause i dont like renegadeforums that much then bye all

It's not like we care. I though you left renegade anyway, so why do you even bother posting here or being a retarded admin of a renegade related site?

Quote:

btw it isnt mine site its the site of crysis992

and i dont think it was campa just cause he dont like crysis...

maybe bad grammar hope you could understand that message

Like it matters who's site it is, you're an admin there, which usually means you're an influential person around that site. You're also, on that particular site where you have a lot of authority approving the attack on renegadeforums.com. Which suggest that you, as being part of renegadeskins.net, approve illegal actions against renegadeforums.com. In some countries this could even be seen as a crime.

Apparently you don't get what I said. You think it's funny because of the DDoS because you don't like a couple people here. Yet, you are starved for attention from people you don't even know by making a topic about you leaving. If everyone made a topic like that, it would be hell. Ok to clear up some things; we do not blame mrackz for posting that, he can do that if he wants to at our website. Please don't blame the website because of one person. We have a great site and do not wish to create any form of creating "enemies". I'll send mrackz a message to please not talk about hacking other sites or renegadeforums, etc.

I never talkd about Madrackz's post: we actually expect him to spread things like this. I refered to one of your administrators aprooving (hence encouraging) of madrackz's childish "bragging".

I think you're imaging this a bit wrong. See, faggots started making skins so much that they forced it down everyone's throats. Eventually, a few guys lost their will to accept anything good, and due to the flood of mediocrity (at best...), what was considered "good" became pretty vague and hard to define in the wave of faggotry otherwise known as scrin's and etc's skins.

Basically, what's happened with movies nowadays, except with reneskins.

I am gonna break this down for the few of us that are too slow to understand...

1. A skin needs a maker.

still with me? I know it is hard to grasp...

2. If something is of faggot nature it was created by a faggot.

Some might say that Dover's parents were gay, because they produced a faggot.

3. From 1 and 2 we can conclude the faggot came before the gay skin, because the gay skin needed a maker.

please tell me you understood this... if not you are indeed a flaming faggot...

So people are born predestined to be faggots? I don't mean this in the sense of sexual orientation. I specifically mean faggots who make faggots skins

I doubt that faggots like the one's mentioned in this thread (Scrin, Queenhunter, Good One Driver) have it in them to spontaneously create bad content originally, and I hypothesize that they themselves have been influenced by faggot skins already in existence.

Not necessarily born as faggots, but they acquired their faggotry else were.

The first Renskin had to be created by a faggot because a skin that doesn't exist can't make a faggot. However, after the first faggot created a skin, that skin spawned other faggots like some sort of faggy mutatus disease of faggotry.

Come on.

Just to start, I don't care about the hating here.

Skins are for faggots? Your opinion, not for the other 100s of Renegade players left.

Come on. I thought I was the under-age dude? Act YOUR age.

If you think our website is sh*t then don't look at it. If you hate them so much say in in their face, don't bother others with that trashtalk.

Btw, Call me a no-name if you want to, I play this game since it came out and I was almost born with a Renegade CD in my hands.

How many times do I got to say it?

Skins aren't for faggots.

Faggots make the skins!

Because that leaves room for error... basically a possibly good looking modification (someone slap me, quick)

Also, someone had to have made the first fagskin. And a fagskin cannot be made by a non faggot.

Therefore, logic says that a fag had to be the originator of the first fagskin. That faggot's fagginess must have originated elsewhere.

Luckely, I took a SS as the link is now inaccessible.

Looking for some followup, I read there

Quote:They (note: they = renforums.com) indeed somehow seem to really hate this site.

I personally liked it very much, because here all skins where ordered instead of just thrown into 1 sub-forum.

I don't see how you got to this? First of all I did you a huge favour by posting about your site, that was unknown to most people here until I posted about this issue. Secondly, which reactions did you expect when an admin posts encouragement to DDOS renforums? Lastly, noone actually said anything about your website itself, they just commented on some of their users who happen to be an admin on your website and use your website to encourage DDOS'ing of our forum. I don't think most of our forum users actually care about the content you have on your site.

The reactions of the website founder have all been very unprofessional so far. But I didn't expect any less.

Madrackz and/or his friend are just fucking script kiddies, with no knowledge of it whatsoever.

And sites like yours deserve to be brought down to the grave.

Edit: The reason why I said the last sentence, was because that your site is actually "supporting" illegal things indirectly, because you basically allow to talk about (and other things around) it.

I would (personally) start with removing admin rights of someone that encourages DOS'ing and would probably ban the person that is/was doing it.

If I'd delete the topic, would you be happy?
I would (personally) start with removing admin rights of someone that encourages DOS'ing and would probably ban the person that is/was doing it.

Btw, you just got credits for at least suggesting to do something aobut it.

I kinda agree, but then again... we all know deleting topics is not a good way to handle things,

because deleting the topic does not delete what is already out there...

Hey, guess what

NO ONE CARES ABOUT YOUR SHITTY FUCKING SITE TO READ ANYTHING ELSE YOU DUMB FUCKING TWAT, AND DOING THAT ONLY MAKES PEOPLE REALIZE YOU'RE THAT MUCH MORE OF A COCK GUZZLING SHIT MONGLER. MAYBE IF YOU ACTUALLY PUT INCENTIVE INTO NOT SUCKING DICK AT EVERY FUCKING CORNER, PEOPLE MIGHT ACTUALLY DROP THE SUBJECT.

also the fact that you're refusing to do anything about the whole (D?)DoSing proves to me you're an immature cock who isn't fit to lead a website, much less a shitty fucking community. The more you post, the more I'm almost inclined to agree with Dover on the "skins are for faggots" comment.

Did you know... that if the administrators of those forums banned Madrackz for his actions, and weren't total idiots by praising them, and didn't come here acting like dicktrees, this thread wouldn't be full of shit talk?! It's true!

Plus, no moderator edited the guy's post. He just can't hotlink an image properly! You'd think an administrator of a forum would realize something like that! Derp!

If this place is full of douchebags, then why haven't the people here DDoS'd that forum? Right now, 'renegadeskins' is the place full of douchebags, given their responses in this thread, and their general idiocy on the subject.

In fact, by applauding the DDoS'ing of this place, that website is actually being detrimental to Renegade, as opposed to helping it.

Frankly, I hope nobody here DDoS' RenSkins. Only total dorksticks do that.

Right, a site is the only thing that makes skinnners make skins. Dumbass, if they really liked the game and skinning it, they would still work on it regardless of a shitty fucking website no one gives a shit about except its members. If they leave skinning and Renegade altogether because of that,

good, that means they're most likely just pumping out shitty skins anyway.

But if these forums died, I guarantee that a good lot more of Renegade would too.

For one, these forums are tied to TT and n00bstories. All 3 would go down at the same time more than likely, so yeah.

Two, while that's true, and Renegade would of course still be going after they died, it'd slowly start to die out. Rather, at a faster rate than normal.

- Scripters

- Mod Makers

- TT

- 50% of the skimmers

I would like any admin of Renegadeskins to tell me the following.

How hard is it to just post a sorry post?

Or to remove the content and give JsxKeule an infraction or talk to him? (That things like this arent supposed to happen)

Or to pm an appology to a moderator on Renegadeforums that this wasnt supposed to happen?

And probably around 50% Of the skin users, And model users. LOL, Mod makers will "disappear" If renegadeforums closes? Half of the mods for RENEGADE aren't even here...

So, Half of that list you just named off there will be gone anyway when TT Comes out. And you have already lost a lot of the Renegade Community due to ignorant assholes like you.

If the the majority of the more active servers use these new options to block all skins and models... well that will suck ass.

I won't go as far as to say it would kill Renegade, but I don't think it would help much in that area.

You don't like skins/models, so don't use them. No need to call everyone who uses them or makes them a faggot. Some skins/models suck and/or give advantages, the suck ones don't get used and the advantage ones should be blocked... No need to be a fucking nazi though. Original Renegade gets boring after a while, if skins/models help keep people interested that is awesome maybe add a few more months to Renegades life span. Nobody likes a fucking nazi though... that just hurts Renegade.

JsxKeule was talked to by Crysis992. You guys were being too much of asses to even notice I'm guessing though?

Btw, TT Patch will Kill Renegade, So, Really, I don't care if it dies or not right now. Whenever TT Patch comes out you loose all your modelers ANYWAY, And most of the skimmers. And probably around 50% Of the skin users, And model users. LOL, Mod makers will "disappear" If renegadeforums closes? Half of the mods for RENEGADE aren't even here...

So, Half of that list you just named off there will be gone anyway when TT Comes out. And you have already lost a lot of the Renegade Community due to ignorant assholes like you.

Lol, Crysis put me up to it? I've been staying out of this battle, And you fucking douchebags kept on fighting when Renegadeskins got out of it, So, I tried to end it, Then you ignorant little fucks decide to argue about that.

Grow up idiot, Get a life, And stop bringing up topics that people have already tried to stop various times.

If you would like to fight with me anymore, Just contact me on MSN.

You're telling me to grow up, yet you tell me to get a life? You probably aren't a hair for 15 so just shut the fuck up. If you really are older, you are pretty fucking immature if you're telling people to get a life. Yet again, a person from renegadeskins makes themselves look like a fucktard.

And the cancer Renegade has consists of terrible skins and cheaters. TT will cure that, and RenX isn't immune, just too young to have caught it yet.

I meant to say 'Chemo,' which is short for Chemotherapy.

Also, Renegade X is immune to things such as skins and client side mods simply because of how the engine is set up. If someone tries to change anything in the game, their game version changes and they therefore cannot connect to other servers. If they manage to get connected, their game will auto-download the stock file and return to normal.

It's only a matter of time before skinfags find a way. They always do.

And, Tbh, Renegade wouldn't change if this site were gone either! And, If Renegadeskins close, You loose 50% Of the skimmers of Renegade.

Lets see.

If Renforums dies out you will loose.

-Scripters

-Modellers

-Mod Makers

-TT

-50% of the skimmers

-A help forum for people that need help.

(And most specially Renedrama's like these...)

If Renegadeskins dies

-50% skimmers(I'm sorry but personnaly I dont believe this number)

I would like any admin of Renegadeskins to tell me the following.

How hard is it to just post a sorry post?

Or to remove the content and give JsxKeule an infraction or talk to him? (That things like this arent supposed to happen)

Or to pm an appology to a moderator on Renegadeforums that this wasnt supposed to happen?

See what I'm getting at?

No one over here screwed Renegadeskins they did it theirselves.

You guys chose this way to deal with the situation.

Which in my opinion an admin wouldn't choose.

Again this is just my opinion do with it what you want.

I have to agree with this.

Although I obviously don't agree with the way this place is ran all the time... I definitely wouldn't say that if this place were gone it wouldn't affect Renegade. To say that is just plain retarded.

Most servers will do like they did with Renguard and gamespy: ignore what's best for gameplay and keep everything wide open so they don't run the risk of losing a single player.
