I have the game Command en Conqeur The First decade.
Renegade is closing in that.

But wen i will play and click on multiplayer online, than i login.
But there are none servers.

I have Renquard all install but it will not help me.

Hope some gays now the anwer for this problem.

1. wrong section it should be in the renegade client.
2. have u deleted any accounts before? if so renguard might of logged in with a deleted account

EDIT: or make a new account if it still happens

Check the sticky topics in the 'renegade client' subforum for all info on making an account .
Welcome to renforums.

Thanxs boys,

The problem was the account.
I had a wrong WW.

Now i have reset my WW with XCC WOL
but than choose that program a password. But i want choose is self.

Hope you understand it.

Greet
A Dutch boy

If you reset your passwords, then you cannot choose your password for those accounts again.
You CAN choose it again if you make a new account (but there's a limit of 9 accounts per serial).
