first you hit the tilde(`) key and type in extras fnkqrrm and if the server allows it(non-laddered games only) then it will say "extras enabeled!" After that you hit and hold ALT then click on the char. or vehicle screen and u get a new screen. Nod has the better ones because 3 of them regenerate in tiberium!

There are several extra characters like the Initiate with Patch's weapon and regeneration ability. I'm sure you'll find your needed information by searching the board.
