What else do you guys run with nod32 like a spyware firewall etc

Just got rid of mcafee after reformate and got nod32 and didn't get avg because it is not what i like anymore lol its to slow scans take way to long.

I use Spyware Doctor with NOD32.

NOD32 is good for finding virus's, but shit at finding spyware.

come on i know alot of people on these forums use NOD 32.

Where did all the people go that post on this forums? i've only seen like 5 people here

Well i have ESET Smart Security which is actually build on Nod32 technologie. Its firewall/av/mail etc though i only use the firewall and AV.

For Spyware etc i have Spyware Doctor

I use,

Symantec anti virus corporate edition
spy blaster

---

spy bot
ad aware
hijack this
Microsoft security essentials
malware destroyer
spyware terminator

but no extra firewall

If you need a list, you're doing it wrong.

i got vista with just the cc cleaner, windows defender and "norton internet security" duno the actual version, but its newer.

is this adeuquate? (yay spelling) or does anyone reccommend more protection?

Norton is crap get rid of it, at least get Microsoft Security Essentials, it's the best free solution.

Nod32 is the best paid solution.

If you have money to spend I'd suggest getting Nod32.

Nod32
Spybot S&D

And I avoid sites with Warez, Pr0n and the likes. Never got a real infection...

Any ad campaign that features an 80's metal band and a dead chicken wielding a switchblade deserves our money.

nod32 + router. If you have a router you don't need a firewall. Program likes ccleaner and adaware are necessary no matter what AV you use.
