Hey guys, our last Dev Night, which had taken place a month ago, was a blast. We will be having our second 'Dev Night' this weekend.

This is your chance to play with the developers of Renegade X, and other members of the community. You could expect a great deal of teamwork as well. All the information you need can be found below.

The game will be held this coming weekend. The first event will be on Saturday, December 19th, and the second will be on Sunday, December 20th.

Both events will start at 3:00pm EST (Eastern Standard Time).

You will NEED Renegade X, version 0.40 to play. More information about that here:
<http://www.moddb.com/mods/renegade-x/news/renegade-x-040-beta-trailer-pictures-and-more>

Dev Night will take place on the [OFFICIAL]Renegade-X.com Server v0.40(borgamers.com) server.

Just like our previous events such as the annual ReneGame, Teamspeak will be hosted. It is highly recommended that you use Teamspeak for this game. To download the teamspeak client, simply go to <http://www.teamspeak.com>

The purpose of using Teamspeak is to maximize teamplay and therefore push Renegade X's gameplay to its very limit. Teamplay will be key for this game, to achieve the highest potential of organized action. We will be using the Renegade X teamspeak server. The IP is 75.126.220.122:8769

See you there!
