This thread is now about flying tanks.

Apparently.

Wasn't that a NR command? I know it was on psu ctf server, when a moderator did !stfu {players name}, it would spam him with that message a good 100+ times. Most people just restarted their computer, or held enter for a good 2 minutes. Well, it got people to stop talking.

It was a long time ago but I recall being kicked from the server, returning with that message.
