Does anyone have or know where I could get the driver for the ATI Radeon 9200LE? It's not on the ATI site and I've tried a few from google with no luck.

http://support.amd.com/us/gpudownload/Pages/radeon-prer300-xp.aspx <- For windows XP.
It seems that there are no specific drivers for Vista/Windows 7 for your card.

I'm pretty sure I've tried that one and it didn't work I'll try it again I guess though.
I just need an XP driver anyways.
