I searched in this forum, but all leads me to old renhelp. and renegadehelp.net hasn't got that tutorial with normal maps and glow shaders.

Does any1 know gow to make some shaders?

maybe someone of you can save the website (as html) and post it for me.
(mostly its File->Save in your browser)

Here is it as HTML. I fixed the pictures for you too

You can click any other button (like the top menu) and it will send you to the page on
http://www.pokemonca.net/rh/ that is supposed to be on that button

Use it by unzipping and running the "index.php.htm" file
