If you used Ctrl + Prt Scr to take the SS, try looking up what the game's own hotkey for taking a

SS is, or vice versa.

You need a special color palette:

Open your screenshot into for example Paint Shop Pro (
http://zunnie.game-maps.net/useful%20programs/PSP7.zip)
Paste your screenshot and then goto "Colors->Load Palette" and browse for the palet.

Then the ss should showup properly...
Save it as jpeg for example
