Of everything you've ever seen or read in your life, be it a movie, book, TV show, video game campaign, graphic novel, fairy tale, ect; what is your top 5 most favorite plot/story lines that you can remember?

It doesn't have to be a mix of different media either. They can all be video game campaigns if you wanted.

For me, 1 being my most favorite:

1. The Legend of Zelda: Ocarina of Time (Video game)
  2. Death Note (Anime/manga)
  3. Star Wars (Movie series)
  4. Mass Effect (Video game series)
  5. Back to the Future (Movie series)

The G-Man wrote on Tue, 26 January 2010 18:48The Warcraft storyline is intergrated into WoW.

You mean the WarCraft storyline got raped by WoW. I've never seen so many retcons in such a short amount of time before. Not only that, but every single cinematic meant to advance the story plays out like a soap opera. "OVERDRAMATIC LINE, OVERDRAMATIC LINE, PLOT TWIST, OVERDRAMATIC LINE, PLOT TWIST, OVERDRAMATIC LINE, OVERDRAMATIC LINE, OVERDRAMATIC LINE", etc. Not only is it completely retarded, but it suspends belief in what's going on.

The G-Man wrote on Tue, 26 January 2010 18:48Also what is the name of that Zelda game that has the wtf bomb and something where she has to open up a chest.

What the hell is a wtf bomb? And opening chests is a pretty standard plot point for the Zelda series. You're going to have to be more specific.

Also you are kind of right tho Dover because the majority of the story is in the Warcraft games and WoW is okay at running it. But I like WoW better than warcraft because its rpg.

You might be thinking of "zeeky boogy doog" which is from some stick man flash animation or something. Too lazy to look.

No particular order

Star Wars (particularly episodes 3-6)  
Command & Conquer (pre-EA)  
Firefly/Serenity (though short lived)  
Deus Ex (1)  
Starcraft 1 & 2

Just about anything with depth. I am most interested in stories that are "believable"/alternate realities (but not necessarily "realistic") and can somehow be tied to the real world. I think the above 5 fall into that category, with the exception of Star Wars. C&C and Deus Ex are alternate

realities; Starcraft and Firefly are possible future realities.

My first grade teacher read The Hobbit to us in short bits everyday, I tried to go back and read it a few times, but honestly I hate reading. Used to only like reading select Goosebumps books...

I don't think I have ever heard anyone complain about the movies butchering the story, are there any huge differences?

haha what, why did you bump this thread? oh well

@The Thing: I'm slightly afraid the prequel, because revisiting an old movie (remake OR prequel) has been proven to be pretty fucking awful a lot of the time. And I loved the Thing. Anyway, it's not even out yet, so, what?

@C&C: C&C is a fun series, and has always had amazing potential, but as far as an actual story, it was unfortunately never expanded on enough to make it good. A shame, because I've always felt it could be expanded on a lot.
