A new day for me! Tried out Ren in a widescreen with maximum screen resolution. Amazing high definition lulz

it's like I am playing a whole new game...City_Flying on a Orca is now like OMFG   Ren looks so beautiful.

You'll also notice that everything is stretched. I like it, but TT is going to take that away.

Same here

I prefer playing fullscreen without black bars
At least it's better then all stretchie shit imo

That's because thats 16:10 which isnt really that wide

I dont even want to call that 'widescreen'

No, that's 4:3, 16:10 is 1680x1050 or 1920x1200 for example.

1600x1200 would look good on ren right now though.

1600x1200 would look good on ren right now though.
Yea indeed you are right xD

As renegade was made for 4:3 it will be perfect on it ofcource
16:10 isnt that bad but 16:9 is really stretched D:

How is 1600 x 1200 16:10? Why isn't it 16:12, something that would actually make sense?
