Didn't wanna ruin Zeratul's topic, so I'll post them here (remember kids sharing is caring)

Creater's too tight and selfish to release, so here it is.

And for anyone who wants the obby..

I use vanilla Rene, so I have no real need for any skins now. (tyvm RG)

If I find any more gems I'll post em

Some people are wondering if these are german too (the ones I uploaded) there not, there in English. ^^

Wow... those PT icons actually look alright.

Scrin making something that actually looks decent is something that is foreign to me.

I know the complete story, time for a history lesson for you.

Because your so stupid and clearly can't remember anything, I've explained it for you in a step-by-step guide.

Part 1: cAMpa created the orginal building bars and gave them too his community members (uT and RC)

Part 2:RC-Endgegner gave them to you without permission.

Part 3: You gave them to scrin and di3hard (without permission)

Part 4: You then gave them to all your friends and they shared and released on forums such as Jelly w/o the source code.

Part 5: cAMpa finds out that you've shared HIS files and bans you from Ren-Com servers.

You guys should really take it to PM's because most of us don't want to see your quarreling, plus it's off topic.

On topic: Nice release. I probably won't use them since I play mostly vanilla, too, but they do like quite alright.

Biggest reason this should stay in PM's is because some people don't know how to type anything other than chat lingo

Owned. I wouldn't say anything for the next couple of days.

On topic:

Cool release...by the way, it's a game, everyone is so high and mighty about whose skins are whose...seriously if you can't share on this stupid little game then you have serious problems or you're just an only child. Honestly, everyone grow up. If you don't want EVERYone getting your skins....then don't give them to ANYone. Seriously, years going by and people making the same stupid mistakes and initiating the same drama. Long Live Renegade.

Have a nice day.

Why do those topics like this always result in ppl calling eachother noobs/names etc?

Is it so impossible to keep it mature?
