This program is made with AutoHotkey. http://www.autohotkey.com/

Its not bugfree, but good for use. I am not further developing it.
Everyone is allowed to develope it further and make it better without my permission.
Just add me to the credit list only.

All the hot-keys are listed in a PDF file.

Tell me what you think!

Uhm you guys should uninstall your noob rogue antivirus programs   and get some real anti-virus!

BTW, I am a desktop publisher and i know everything of PDF files.

It is completely safe to use.
