in the early game, get a load of grenadiers, go up to the nod lookout nearest the right as ur comin from the gdi base. u can just get the strip. works about 50\% of the time. depends if you can get enough people quick enuf while all of nod are flaming the harvey.

the best stratagy for gdi is to defend teh base against nods first rush through the short cut> Everything i join a game on city, i always see that the weapons factory is already gone, and thats with 25 minutes left. Gdi just need people to defend more...

Heh, I was in city, got a mammoth, blasting away at the entire other team while mine did nothing, absolutely nothing. Ever had one of those games? I mean, like, where the h*** do they go? Then I finally see an orca, somebody finally smart'ned up and decided to help. Turns out somebody hijacked an orca. Some idiot gave them a f***ing chopper! Go figure.
