Starting to experiment with Veh skins again and came up with this idea...
comments
and also inform me if this has been made before

looks stretched. If your going to use images for skins find an image bigger then the actual skin or the same size.

yeah, looks pretty stretched.

Also, why's the back windows and such camouflaged?

that is just terrible! Make another layer on top of the original skin and make it transparent!! or

---

set blending mode to overlay. After that remove camo from windows license plate etc.

transparent!!
that is what i did.....

Also V2
