Not really a fan of it mate tbh. Some red armor indicators, a red radar and a red blob background for the number of bullets left.

Same stuff just re-coloured. Looks tacky; but never the less, keep making skins and getting better.

I don't like the flow of it. It just doesn't sit very well.

To be more specific, I'd say it's because of the slapped on colors and the lack of an overall design.

TL;DR: It sucks. AGAIN TRY.
