I saw some mods that add custom units to the PTs. I would like to add the GDI prisoner as a unit at my mod. I want to make a small arrow near the GDI soldier, so you will be able to switch images like with havoc or mobius. How can I do it?

Seriously start using renhelp.

The New Renhelp http://www.renegadehelp.net/

The old renhelp http://renhelp.laeubi-soft.de/

A backup of renhelp http://www.pokemonca.net/rh/index.php?mod=Tutorials
