I have decided to release 2 sound packs I put together.

C&C 95 Sound Pack

This replaces some sounds ingame with
sounds from C&C 95 (and the Arty fire sound from RA 1).

The following sounds have been changed...
 - Medium tank fire
 - Arty fire
 - Light tank fire
 - Mammoth tank primary and secondary fire
 - Auto Rifle fire
 - Nod Turret
 - Stealth tank fire
 - MRLS fire
 - Rocket launcher
 - personal message notification
 - [Ctrl 7] radio command
 - [Ctrl 9] radio command
 - [Alt 3] radio command

C&C 95 EVA Announcements

This replaces the EVA announcements ingame with
the annoucements from C&C 95.
There are beep sounds for when the enemy
base is under attack.

The sound files were extrated from C&C 95 and made louder in order to fit in with the other
sounds in Renegade.

Here is a video that shows these sounds in game.

EDIT: Also here is a sound file for the APC fire. I did not make it though. I found it in the APB
always dat file.
