Okay okay, so I'm an old player coming back to the game.

I've played on numerous accounts but the most known had to be angelfan1

So, I read the steps for online play, and I tried to start a game.

I realized that it said only 9 nicknames per serial key. And realized I exceeded the limit.

Would there be any way where I could possibly clear all nicks on my serial? So I could create a new one?

First, welcome back!

Second.. [http://xwis.net/xwi/rg/?a=delete\\_nick](http://xwis.net/xwi/rg/?a=delete_nick) is where you can delete nicknames. You must know the password for the nickname to delete it. If you don't know the password, you can do the following:

- 1) Type in the username into the Renegade login box ingame
- 2) Type in any 8 character password that is NOT the password for the nickname
- 3) There will be a message stating that its an invalid password. Click through this message and go the the WOL chat
- 4) In the chat lobby, type 'reset password' (without the ') OR 'reset passwords'

\*reset password will only reset THAT nickname's password. reset passwords will reset every single password for every nickname on the serial you are logged on with.

Hope this is clear enough, I'm really tired

r.

So I did what you told me to.

It did indeed delete a few of the names.

But now I'm having a problem creating a new account.

I put in a nick, and then I put in an eight digit password.

I hit enter, and it says "Connecting"

---

Then after a little bit, it says "Login Failed: Unable to connect to server, Operation timed out."

I'll post screens if needed.

Ahh fixed!

Back in the day it let you use special characters.

Guess not anymore.

Nope, stick to strictly alpha-numerics.

Glad to have another player back!

Hey all !

I want to get back to Renegade too, i haven't played Ren since like 1 years, and i want to play again ! Could you help me please ?

When i try to connect to XWIS by the advanced list, it tolds me that my nickname is deleted. I tryed with anothe one, same thing. Is it a bug or "desactivate account" or something ? my nick is CFGpower.

Can I ask somewhere to enable or create again my nick ?

I tryed a wrong password and it tolds me "invalid password or existing account" and with valid passwords that my nick is deleted

P.S. : I just tryed to create a new nickname, and it works ! But please, I really really want to use my old nickname, it gives me a lot of memory and so people can recognize me !

Thanks by advance !

If that account is deleted then there is no way to get it back, as it's stored on an MD5-hash, which is not decryptable.

well the only solution for your old account is if you reset the password, if you reset it, make sure you remember it
