Since E3 was this week, I was curious to know what games everyone is looking forward to. I am looking forward to the following games:

GoldenEye 007 – Wii
Donkey Kong Country Returns – Wii
Portal 2 – PC
Star Wars: The Force Unleashed II – Wii
Conduit 2 – Wii
Star Wars: The Old Republic – Wii

You can find links for those games here.

I am also really looking forward to the Nintendo 3DS.

PS. Games are in no particular order.

Dead Space 2 and Fallout New Vegas. They're probably going to be one of the last few games that aren't made solely to move units. Oh and Portal 2. I can't wait to play with GlADOS once again and the co-op aspect sounds very promising.

Still nothing on Episode 3 yet...

Yeah... I wish they would announce the release date of Half 2: Episode 3 (or Half Life 3), that would be at the top of my list if it were announced.

The "pleasant surprise" was Portal 2 (and Steam I think) on the PS3.

And only five people in the entire world rejoiced. Portal 2 coming to the PS3 is great and all, but I don't think it deserved to be called a 'special surprise.'
