Hey guys, its been around 3 years since I was active on these forums but have come back to renegade for the past several months now, so Crimson kindly unbanning my account Im sure most of you remember me as someone who would start alot of shit (and maybe I did) but I was just fucking around most of the time and just got taken too seriously I guess....

Anyway, first off my apologies if anyone took offense to past beefs but now im focused on being more productive than anything. Even back then tho, the renegade-wide IPBot that every major server currently uses was actually my idea (based on a global wolbanlist), and you can still find me in readme's for various other stuff (BRenBot, dead6re's, etc).

/essay, you will see a few big releases from me in the very near future and I still do play very competitively, so if you are looking for a game, you know where to find me

I remember asking you for a game once.

You kept spamming "1v1 ANY1!?" in f2 chat over and over again. So i though i'd shut you up honestly.

I pm'd you saying "1v1 snipe?"

You said "K, server?"

I said "c4u"

You said "Lets aow"

I said "I said snipe"

You said in f2 "HATE IS DODGING ME LMFAO"

I said "Troop doesn't know how to get to c4u"

You left and didn't come back.

You're not worth a 1v1, you leave when your down anyway - it's no wonder not a soul likes you. I'm forced to actually feel sorry for you at times. Though you do have it coming - and still do. Not

to mention you can never play fair or obey the rules - you do anything to win unfairly....and fail at doing so.

If troop was still trying to be a troll, you would of quoted you saying something like "You mad, bro?".

It's your belief that he is being serious, and getting annoyed about it (or your knowing he is winding you up, but still having to say something about it anyway) that encourages that behaviour.

I am no expert on internet humour or culture, I often miss obvious things like this too, but you really need to understand that troop done that sort of thing to get some sort of a reaction, any
