It's quite difficult to get into the rythem of it, as it's counter intuitive at several spots. If you listen to it at around the 42 second mark, then that's the sort of thing I'm talking about. Kinda like rubbing your tummy and patting your head at the same time.

It's off putting rather than something I could sit and bob my head to.

This is my honest opinion, I am not saying this to be a jack-ass. Sorry

I think I'd appreciate this music more if I had orange skin and wore pink shirts.

The sounds and shit you use are alright.

Your knowledge on rhythm and timing is awful.

You need to learn these two concepts before releasing anything else. Plus the fact you seem to be lacking a bass riff, or any bass at all. remember, everyone grooves to the beat of the bass.

Listen to these House tracks, and compare them to yours

Notice the tempo and how everything gradually comes together. I'm not saying you need a vocalist or anything but musically wise your all over the place.

the word "effort" is especially insulting, considering how he shit out two songs in 5 minutes.
