Hey i just installed level edit on Xp running the final decade.

I changed my registry and the presets now appear, i created a folder in my mod package folder called scripts and put my scripts in there because i think thats what i am meant to do but no scripts appear when i goto mod a object on Le, Any idea why? Thanks in advance.

Create a folder /scripts/ in your moddir and put all .dll in there
scripts.dll scripts2.dll bhs.dll (and possibly shaders.dll)

http://apb.game-maps.net/index.php?act=view&id=525

Download and install.
Regedit: HKEY LOcal Machine/Software/Westwood/APBTools
Adjust Installpath to where your game.exe is located.
