you can also be sniped and destroyed by GDI very quickly (Arts fire in a straight line, so do snipers).

wiuth every map i know a place to kill buildins from another base while still in yours, not on walls or city, maybe geting in an orca when u have a rocket launcher picked and u get in it in a weird way and just go up then u can shoot the tib refinery... (walls_flying only)otherwise i think i can with all the other maps.
