Vice City was an 'expansion pack' of sorts too, and that game is arguably the best feature in the entire GTA series.

Fallout: NV is fucking awesome.

Fallout: NV is fucking awesome.

It is, I just wish they would have put more development time into the engine tech; even Renegade could blend animations...

So far the game is amazing!

Who cares if it is an expansion, its fallout 3 with another huge story and game and tbh Fallout 3 next to oblivion is the best game i have ever played.

Though, it is a bit buggy still

Fallout: NV is fucking awesome.

Very arguable. It's hard to take Tommy seriously when he flails like a moron in three feet of water.

Fallout 3 New Vegas does look quite good, having said that I have not played it yet. Though, after seeing a few developer interviews and previews, it has been said that it's much more than an expansion, I've never heard "it's just an expansion".

I have played and have yet to finish Fallout 3, so far I think it's pretty good.

Very arguable. It's hard to take Tommy seriously when he flails like a moron in three feet of water. Seriously though! Fuck that shit!

Also, my CD quit working the night I got it. No scratches or anything. Just that fucking purple loading box. It never fully functioned afterwards. So, bad experience.

Its not an expansion, it just recycles a lot of assets, however I enjoy it a lot more than Fallout 3, but yeah the engine could use some serious updating now...
IE, bad animation systems and havoc engine still feels broken, although I have yet to get killed by books randomly flying off of shelves, but I can tell thats coming.

I love enemies clipping below the ground, always makes me laugh.

played it for 35 hours, bored now. so yeah, its pretty good i think.

I would have figured the sarcasm would be blatantly obvious to anyone who knows anything about it. Maybe I was wrong.
