This is the first door ive made from scratch that came out good (not to mention my first skin drawn from scratch on a canvas this size)
its a door from Duke 3D

i plan to make a pack of a few different Duke 3D doors
i changed it up quite a bit but its still obvious what it is and where its from
this took several hours

Agreed, its better than that acid looking door you made

And Gozy, couple more posts til its over 9000!! /offtopic
