I kinda liked that second One. I could listen to that at work or something (little bit like hed kandi without the lyrics or something).

I need to login, so nvm.

This is a nice liveset from an rather unknown DJ:

and  
<http://soundcloud.com/dikke-dwaas/harde-baas-fire-in-the-disco-pt-2>

I really like the beat as well as the epic changes between tracks.

The website is almost a complete copy from Megaupload's adult page, only the colors are different. Other than that, putting near nude girls next to the songs doesn't make it a better song...

Too heavy of bass for most pc speakers. I had to hook it up to my stereo via optical to avoid the pc speakers from skipping high beats.

Also look into 'dubstep'.
