There are two options. You can make it look like a cartoon, or have an edgy feeling to it. Make sure your computer supports shaders and you have renegade updated to 3.0.0 or later

Download the files [HERE](#).

Extract all files to your renegade DATA directory.

Change the name of sceneshaders.dll to sceneshaders(orig).dll

For a cartoon, rename sceneshaders(toon).dll to sceneshaders.dll. For an edgy feeling, rename sceneshaders(edge).dll to sceneshaders.dll.

To uninstall, rename Sceneshaders.dll to the original filename, and rename Sceneshaders(orig).dll to sceneshaders.dll

Thats it. If you have a screenshot, post it, as screenshots crash my renegade.
