Hello,

I'm making a multiplayer map in which the GDI players have to kill three officers and one have to clear one area. So totally there are four objectives. You will have to kill an officer to get the security cards which you need to continue.

How can I make such objectives? I want the next four primary objectives (its better if NOD gets other objectives, bit if that isn't possible, it won't matter that much):

- 1) Grant the Level 1 security card.
- 2) Grant the Level 2 security card.
- 3) Grant the Level 3 security card.
- 4) Clear the UFO.

With the first three objectives you will have to kill a moving Nod officer. He will drop a respawning level 1 security card. He already drops this security card, but I don't have the objective yet. With the last objective you will have to kill all units inside an UFO (you will need the Level 3 Security card for that).

How can I make these 4 objectives? I won't need more, only these four.

I hope someone can help me with this

Kind regards,
Sauron

I suggest you write your own scripts to do that.

Watch some of the videos i made:

Alternatively, since this is a coop map, which i very much like you can also jump on irc.mp-gaming.com and i'll see if i can help you.

Do you have teamviewer? <http://www.teamviewer.com>
Then i can remotely assist

Hello Zunnie,

I have VS and Teamviewer now (Just purchased them and installed them, so don't know how they work yet). Maybe if you explain me how to use VS and how to script with it, I could get started. I have watched the tutorials but none of them explain me how to open VS or what to open. If you want, you could explain me that.

Kind regards

I didnt mean to register on the forum, but thanks though
IRC is a chat client where we can directly chat together which is
a lot easier communicating than forums.

<http://www.mirc.com> << get this, install it, and then type:
/server irc.mp-gaming.com [enter]

Today I installed the 30 day free Trial.

At the evening I will go on it. Now it's Christmas time and I have to go to family.. Hopefully: speak you soon
