Im making a new hud.. One that I've never seen before, And I would like to know, If there is ANY way to move the CHAT to another location, rather than it being at the very top. I'd prefer it to be above where your GPS/Radar/HP is. And only be the length from GPS/Rader to the end of your HP/Armor. Does anyone know if this is possible?

Possible? Yes. Remotely close to easy? Nope.

I think I've actually seen somebody do this, but it wasn't easy. It's not worth it unless you're planning on putting something else up there :£
