As you may know activity on our cssource servers isnt really to write home about. There are players in there like everyday but it is not enough to keep the servers populated for longer periods. From time to time there are 2-8 players in there but it also empties out quick again.

I was thinking of holding another event to create some activity on one of our servers. This time i would like you all to join me (and others) on our Mix server which runs a dozen de and cs maps mixed through. So not a 1-map server.

Add the following server to your favorites please:

Server Title: Mix 16000\$ NoBots HLStatsX MP-Gaming.com

Server IP: 109.230.216.206:27090

I suggest we hold an event one hour later than the usual 8pm i always do. Let's make it like 9pm dutch time (3pm ny time).

The event has been scheduled on our Steam Group MultiPlayerGaming so view it to view your own timezone times

Stats will be recorded at <http://css-stats.com>

Thanks and please all come join

Greetz zunnie
