=S.A.P= Stands For Strategists & Power

It was founded mid 2009 and also covers RA3.

We look for members that play in mid build servers that use commands like !wall !ramp !rail and such.

We have our own Renegade server, which is avalible by WOL and public.

Below is our Promotional Video with a soon to be update.

Anyone who wants to join =S.A.P= please PM me so i can create an account for you on our clan forums.

Our Website Is At: http://www.sap-clan.netai.net

We had a fair size of members in late 2009 to mid 2010, however they disbanded to due website and server issues, as well as admin absence. The admins are now present once more and to stay at the side of our members. All members who have been active with us for a month get free mod status on our servers after promotion to corporal in our clan chain of command. We are also looking for someone who can modify server scripts being objects.gm and scripts.dll to better modify our server. An old member by the name of Reegex did this for us, and we would love to see him back, and if not, someone who knows something about these server side scripts.

I look forward to new members and their unique skills to offer. I am =SAP=Frank an i approve of this message.
