As you can see most of it works.

Main problem I am having atm is no 1st person view.Redid the weapon and fixed some of 1st person have to do some stuff to it.
2nd Problem would be texture ;p.

Edit: forgot pics ;p.

Please help me if you know what I'm doing wrong, or if you know how to do Rene guns.

P.S. really here to show it off and see what some of you think so slap your opinion on me.

And no the gun was not made by me.

Looks nice man, I wouldn't mind using it. Sadly, I know nothing about texturing or anything dealing with modelling a weapon.
