I'm trying to make Light Tanks and Meds Veh Bots.

So far i have tried M08\_Mobile\_Veh: They get stuck to much. ;p  
JFW\_Follow\_Waypath with M08\_Mobile\_Veh, works but they Don't shoot while following waypath,  
and they don't stop after they followed it.

I'm still look to find away if anyone could help would be nice.

<http://www.pokemonca.net/rh/index.php?mod=Tutorials&action=view&id=38>

Ask zunnie he made some ai scripts for vehicles I think

Also on that site says you made a video on how to do it lol?

Yes i Haven't made the Video.

And that is what I used BUT the vehs get stuck and everything.
