to lock the camera to the turret you have to follow these instructions:1. Go to the options menu (this can be done in the middle of a game)2. Click on the controls menu.3. Click on the Look/Mouse tab4. Check the box marked Lock camera view to turret.Now your camera is locked to the turret.CAUTION! This setting is best only for tanks and othe slow vehicles. If used on Buggie, APC, or Humvee, it will be very hard to control movement.

It's somewhere in the game options (I mean options screen). I don't know exactly where, but I believe it is a checkbox. You'll have to search a little. [August 02, 2002, 12:30: Message edited by: Argon Vex]

You can also lock the turret to the mouse so you don't have to press "V". It's a lot easier.
