Does anybody know where I can find the GDI infantry desert camo skin pack? Not the ones on renegadeskins.net or game-maps. If anybody knows any where else that has any kind of desert camo for GDI infantry, a link would be greatly appreciated.

Sorry SB, forgot I made a previous topic about a skin...no, that's not the right one. And yes Spyder, that may be so. I've been corrected b4 as to the correct terminology. I had it b4, but don't remember where I found it.

Looks like these desert "textures" were made by c4kitty. No download here but info with SS only:

OK, I got another one for you guys. I'm looking for the Sakura jumpsuit skin, the red and black one. I've found it on renegadeskins.net and game-maps.net, but neither of those files worked. Seems where ever I find it, the files are always corrupt or something. Does anyone know where I can find the "working" skin? I'd appreciate it greatly! Thanks again everybody.
