I haven't had Renegade WOL for a while, but I do know of the recommendations. I'm not sure how to get them, I got one for being MVP on a server but i don't know if it goes with other servers, or if you can get more than one from a server.

Its on a community by community base, most communities have these separate per server but a few communities share them among all their servers, such as st0rm.

And if you already have one, do you have 1 on all servers?

no

most servers use a bot called BRenBot that gives out recommendations and the recommendations stay logged on the server you got them on
the servers that are online nowadays operate independently and have for years; different communities keep them online

BRenBot recs (must all happen within the same game)

5 heavy vehicle kills = 1 rec

8 light vehicle kills = 1 rec

1000 points by repairing buildings = 1 rec

100 (right?) points for repairing vehicles = 1 rec

mvp = 1 rec

best k/d ratio = 1 rec

most kills (10 or more) = 1 rec

2 building kills = 1 rec

liquidv2 wrote on Sun, 21 August 2011 19:45BRenBot recs (must all happen within the same game)

<numbers>

Those are the default recommendation triggers, however they are configurable so different servers may have different requirements, even if they run the same version of BRenBot.

Just a quick FYI
