Oh god, it's amazing seeing how many people suck now. What's funny is, they just try and play like they were as good as they were, without thinking the other person even knows.

Seen a lot of snipers in tanks the last few days.

Had some great and fair sniper battles on st0rm last week. However, the lag is killing and spoiling the fun.

I haven't really had much, if any lag, related to 4.0. Only type of "lag" i have with 4.0 is playing in non 4.0 servers and every seems glitchy/warpy. Other than that, haven't had problems.

He reported that TT stopped working for him, while he was still beta-testing. So who knows.

Then as he knew that TT was approaching open beta - he disappeared from rene. Coincidence? We'll see.

I thought that too.

However, "running" 4.0 on a server that doesn't run 4.0 cannot prove you aren't using a cheat (because you can't prove you're actually running 4.0)

How is it going to stop you from loading cheats? The only way to stop them is for 4.0 servers to be running with 4.0 clients and force 4.0 upon anyone that isn't using it.

just running 4.0 stops some cheats. But servers needs to being running 4.0 to use all the anticheat features of the client.

No. I've been done with Renegade ever since I moved to college really tbh. I'll come back to it around Christmas when I'm back home, just to shut up the people who will undoubtedly accuse me of cheating since i *just happened* to have stopped playing a few weeks before the release of a more advanced anti-cheat. Not that it is likely, but I wouldn't really be surprised to find out Spooky uses ArrGeeAatch... Just because of all the different people over the years that have been found to be cheating. It seems like 75% of the people left use something...

Yes, I have played with Spooky quite a bit in the past... I was just saying with some of the people that have been found to be cheating over the years, I would not be completely suprised if you ever hear Spooky cheats.

Not that I suspect him, most of his time is spent in tanks from what I have seen.

This made me laugh.. Hardly anyone actually cheated, or made it blatant, though the ones that did were easy to tell. And with 4.0, it's obvious they were.
