As lots here know or have seen I am banned in lots of servers .

some of the lies around are that I cheat and the fav lie is sirculated by two haters that I try to chat up a 13 year old girl on facebook so was branded a pedo

lets take a look at some of the main reasons

heres one of the first real bans that started the arguments

<http://www.st0rm.net/forum/showthread.php?13490-banned-by-eye-k-for-his-own-make-a-reason>

as he was a mod at the time his buddys and other mods all join in to abuse in and out of game

<http://www.st0rm.net/forum/showthread.php?14661-banned-for>

and as I thought it was all totally unfair being abused in games by mods admins and others and nothing was ever done .

I began to evade bans to play .. ok some ones gona say why evade why not join forums and dispute . well that was not possible as they banned me in forums also .

so I moved to other servers like jelly where for no reason was banned there and later informed that by wilo and eike that they know the mods and admin and asked them to ban me .

so then me and will and others found each other on facebook and hate loads of fun rageing on each other

<http://www.facebook.com/profile.php?id=100002440902180>

and then as he couldnt win the argument he started reports to facebook that didnt work so he started posting on his wall and mine that . I try to add a 13 year old from his friends list and abuse her ?

but to this day fails to supply any details of this like name time person what was or was not said ect it was just his lie to try make facebook ban me also but he fail.

heres a ss of the things he write in my profile pics

<http://www.facebook.com/photo.php?fbid=106575016100528&set=a.102963996461630.6024.100002440902180&type=1&theater>

so as some other servers have ask why is it you are banned everywhere hope the above reasons show you
banned

jelly --- no reason

atomix --- refused to change my join message

storm --- reason is above
mp ---- host is buddys with wilo

there are others who all did as wilo asked and banned for no reason

edit some more updated links

Hi Simon, you was a good guy in RenCom, I don't know why people have banned you, but i'm sure the lies arnt true, we played many many hours together.

How's the wife and kids mate?

P.s: I was also known by D1shadow,shadowprime, Shad00w in RenCom. To avoid confusion.

EDIT:

While I remember your original ban was infact due to your join message which was RACIST and you refused point blank to change.. After we warned/kick/tbanned you cried for weeks about mod abuse.

This all happened what 12-18months ago?

I'd like to point out that it's totally up to the server to choose who and for what reason they want to keep someone out of their servers. Wilo has extremely valid reasons which I have seen myself and I trust Wilo a LOT more than you. Based on your actions you pulled with him and how you have tried to use our forums as your base of operations against your 'Jihad' against Wilo and Renegade, and your behaviour as a whole, personally, I don't want you around anywhere near anything I run.

I'd like to stress that the above paragraphs are my personal opinion and does not reflect Jelly's statement and/or reasons to keep you out.

I haven't seen any concrete evidence of him doing anything ban-worthy tbh.

Defending the culprit? As I said, I don't know what's went on exactly, but the lies about him can't possibly be true. He's in his 40's and has a wife and children. He acted very maturely in RenCom and never once had any issues at that server for several years, you can state what you want as long as you can back up your claims.

So you're stating that you don't know anything about what he has done, but "the lies about him can't possibly be true"? I like how you're not informed about the subject at all except for his flawed statement; but you're certain about your case. Nice one

I know what has happened and what has been going on. I know what he did, but I'm not releasing any of that shit because what he has done goes beyond these forums and Renegade as a whole, and I don't want to say shit that others (especially Wilo) doesn't want released because of the personal nature of this.

Sorry sir, 3years wrong, I knew I was close though.

I don't use Facebook for one reason, I don't have the time too.

I work 2 jobs and look after a relative whenever i can.

This whole "pedo" thing is complete and utter bullshit. Why the fuck would you be a "pedo" with a wife and children? To be honest, if someone called me that on a site such as Facebook, I'd contact the Admins and state that theres a very sick indivigual spreading malicious lies and should have their rights limited.

You may have annoyed people sure, but everyone knows what st0rm mods are like in terms of abusing there powers and banning for bs reasons.

I think I remember your setjoin a very long time ago, it was something to do with RenCom - the server was dieing and you not thinking decided to advertise by stating RenCom needs players. You should've changed it mate. I think some servers should check the IP/Serial of when you're ingame too. Endgegner seems to be spoofing you in servers such as Atomix and using Arr Gee ahee.

I don't recall it being racist though, as you're not like that.

Edit: I'd LOVE to see proof of you cheating, backed up by unforged logs and/or screenshots proving that it was you in game, but we probably wont, as that evidence doesn't exist.

Shame on you for hacking Renforums Wilo, I'm glad I don't know you, as I'd probably throw up after finding out about the type of lies you spread online.

dude yes your right haveing a wife and kids do,s not mean you can not be a pedo .

but mud sticks and as we seen if wilo or one person says this then loads start to say it also . they have done this in game facebook and in forums and that is why I flame them at every point .

they found this got to me when ca66ie once called me a pedo in game and I got offended and asked the mods in storm to do something about it. I then went to forums with ss and logs and asked could they do something about it and it was all a big joke to them .

so then wilo knows this would get to me and used it on his facebook page as he blocked me. so by adding his friends gave me access to his photos and info . so he then posted do not accept this person as he is a pedo to warn them off.

and I did report it to facebook but if you know fb the sux at doing anything .

if you look at my above links you will see the ss of the original post,s and others where wilo says .

I have friend in all servers and high places and I am gona get you banned everywhere . it is all there for you to see if you take the time to read and open your eyes.

I'll go with your excuse even though I still think it was due to you being racist.

If you walked into a T-Mobile shop and everytime someone walked in you said goto o2 shop its better how long do you think it would be before you got

- 1) Asked to stfu
- 2) Asked to leave
- 3) Forcefully removed because you refused to leave

Same applies here.

You was asked to do something by a moderator you choose to

- 1) Ignore it
- 2) Re-set the setjoin when it got wiped.
- 3) Acted like a child

You might not like being told what to do but when you're playing on someone else's server which they have to pay £100 a month for you to play on it.. When they say remove the setjoin you remove it.

Comment on your video: command & conquer renegade st0rm server admins show their true nature

I would just like to say, that pissing off an admin by stalking his little sister on Facebook and getting banned for it. Then nick spoofing him in every major server and using *cheat name removed*and then finally ban evading... kind of makes you look like a prick.

Also Wilo didn't ask us to ban you. In fact we were gathering evidence before we even knew what was going on between you and st0rm!

"I still play all the servers fool dynamic ip-ccr serial changer-name change"
ISP ban. Problem?

- 1) you haven't attacked me (giving me reason to not like you)
- 2) You didn't act racist by calling me a sheep shagger and that I hate the word England because you saw my profile and it says Wales, when in fact im from England.

I don't hate you for 'wilo and his lies' whatever happened between you two is your business. I 'hate' you because you abuse people. I remember when you got banned by vultima last year you called him all sorts of names because hes welsh.

Instead of taking the mods advice and just changing your setjoin you had to make a huge deal of it.. Getting yourself banned.. Evading that ban to abuse the mods, to waste our time banning you again. This went on for months.

Your friend Sean keeps telling me that you're acting like this out of anger yet I fail to see this because its the only way ive seen you act.

Do yourself a favor, seriously... If you want to play and not be hassled.. Just play the fkin game and dont type anything.

ok some of your points are true .I hold my hands up and say I can be a dick . but I was and still am driven to defending my self in games ..

ie
in noobstoris other night was playing fine when aziee joins and starts sayin why you in here you use *cheat name removed*and cheats and ddosser servers and wilo says your a pedo ...all this in open chat so then others start asking is this true as we know storm mods and we trust them ect ..

I get this in any game regardless of name as some one always points me out ..

would you expect me to just play and say nothing to defend my self would you say nothing .

at some point above some one says mdk has mental issues and yes this is totally true
<http://www.rcpsych.ac.uk/mentalhealthinfo/problems/bipolardisorder/bipolardisorder.aspx> read
some of my symptoms pls tou understand .

also some in game have used this knowledge against me with things said like [go top your self]
[go drink your self to death mdk] and other out of line things said and they know they will get a
responce from me as most mods do or say nothing

dude to be real with some oth the things you have seen said to me would you not be totaly pissed
and angry.

and if you had play with me befour this all started you would know I am a great team player
always rep or mine -donate anyone and everyone in game as they start with low creds regardless
of like or dislike

sorry for the above comments but you seem to have join the topic with the point of attacking me
also . and seems you have a natural dislike for me regardless of what I say or do..

but to you and all I apologise for anything said or done or may say or do in the future . its hard to
stay quiet .maybe I could remove my chat box in game somehow lol

they call me a cheat and a ddoser and other names and I am suposed to respect them are you kidding .

yes I have a temper but wouldnt you also with all the abuse and lies dude .

and as for 4.0 I tried it but did not like as I do not use xwis or gamespy and it just crashed with rr ? and to be totaly honest I do not trust it with its auto downloader/updates ect

but if you give me a way to use it with rr server list with out it crash I will try it out . not that it would do much good as I am banned in most servers lol

I was reluctant about rr to start with but once used found it great. with its dedicated server list and stand alone style now if tt 4.0 was anything like rr I would use asap but it is not it crash my game and cause loads of problems all my scins was gone and my texture packs .

Faint of heart, don't whine about the old IP's, as any person can download brenbot/fds and find it theirself.

I had more videos, but I really didn't care enough to save them...blatant ones I rarely do. You only got famous because I decided to upload it to youtube. I was there that day silly man, I was the one you cheated against.

This wasn't supposed to be a "omg you lie I'm not a hax...PROOOOOFS!" thing after my post up there...I only said that so you could save some face and stop with the lies.

For the record, Wilo crying about the nick jacking was funny shit. I had a small chuckle at his expense that day.

Here's the original post I made in MP:

Quote:Halfway through that vid you can see the aimbotting. Seems he's on a cheat spree using other people's nicks after being banned from st0rm-gaming. Would've just let him slide as he was never a bad guy here..but cheating is another story.

The qkick script is on for his isp. Removing the ban since it's pointless considering he changes his IP that fast and "Wilost0rm" wasn't him anyway.

Didn't even know about St0rms recent ban right before this: st0rms post. That serial is a faked one made by rgh.

Seriously your 37 years old ffs grow up and get a life.

that is not even me lol in what world have I ever used the words mutherfuckiers lol.

that is just a video of a nick faker and could have been anyone .

I have around 80 seriels all from online .

also what made you think it was me ip range-isp-seriel- ??

That video is just as ban as st0rms where they say cpjok is me and ban the guy. but if they check their forums will see he is another player and was registerd log in front of me .

shai I know you seem to have made up your mind that was me and not a lot will change that and I can not prove it was not and you can not prove it was .

and people will say I lie as they trust you more being a mod .

I have never really had a problem with you shai and find you to be a ok and funny guy and fair for a ren mod but with my hand on my hart can say clearly that is not me .

but how can I prove that . his style of play and the way he types and the words typed mach nothing of my style for a starter I would have grabbed those mines and mined doors lol

if you come up with a way to for us to prove this is or isnt me let me know ill be happy to try it . to clear my name

sure most can see this is a big con to soil my name

- 1 . use rgh
2. use aim bot
3. use ddoser and attack servers
4. a online pedo
5. a total lier
6. name faker
7. the list go.s on

I will also say this MDK. The stuff you posted on Facebook about wilo cheating on his GF was
with a girl called Lucy penelope was quite funny to be honest aswell my friend but what made us
laugh tho is that we were all sat on Teamspeak with Wilo and his GF and all of us were laughing
and thinking what we could say in reply to you. You gave it away by the Info you put on your
profile lol. I can also point out you made a video of some conversations you had with wilo on FB
but it was a load of BS lol. To be honest you are just sad a 37 year old man trolling people cause
of a little Ban on a server. Get real dude.

Honestly, MDK, I don't think anyone cares why you're banned. Yes, you may have been wronged in the beginning (and I use "may" loosely) but the amount of shit you've done between then and now has piled up on that so much, nobody really cares about that anymore.

You, yourself, have soiled your name.. :/

I have done so things but only as bad as the things done to me .

and I know I am a dick and anoying but so are others in games are they not but they get away with it.

and the only part of may name I want to unsoil is the cheating statements .

as I know that shai video is not me

I know I never used *cheat name removed*or anyother hax as shows with most of my game k-d
most of my kills are with timed c4 on snipers ect or mines

my main aim here was to bring in to open all sides of the story between me and wilo and our little online fight .

I think that's incredibly mature of you to do. As long as your moderators keep the those terms, I don't foresee any problem.

Simon, I really urge you to just drop the matter my friend, please just try to forget about the past and move on and enjoy Renegade for a bit. A game is for enjoyment not all this drama mate.

I've defended you numerous of times, helped you different times, in public and in private. So saying that whole st0rm was against you is just not true. No matter who started it, you have caused enough trouble to be network banned from st0rm and from other communities. And you know that. And you are still talking about lies? I'm just, shocked.

The way you are talking right now, even here in this thread, is just disrespectful towards the people who have tried to help you fix things. You are older then me MDK, act like that for once please.

There are tons of log files, tons of forum posts and tons of screenshots everywhere that can proof that you either acted like a complete asshole to some of us, as well that some people tried to help you. I don't even want to spend my time searching all of it, because I would be busy for weeks.

Apology would be great. And if you don't want to give it to certain people, then give it to those who actually deserve it.

See you ingame. And try to avoid problems from here on.

Oh, and Azazel, just because of the fact that I never have known you already shows me how long you have been away from st0rm. Keep your despicable reactions regarding this subject or a community in your mouth, knowing your history, they have no value at all.
Regards,

Joey

Ok,just for the Luls,im going to remind u of how things happened, obvs. ur brain is messed up so u cant get the Facts rite:

1. I made u Tempmod back the days when u seemed to have control over ur brain, this stopped the Night when u joined on under and randomly kicked players cuz u were drunken or full of medics, either way u abused ur givin Powers, and therefore they got revoked.
2. I invited u to join DT Clan back the days when i first started playing renegade, u never came to TS even tho i told ya to be there and be active in forums, both of it u never did, therefore u got removed from Memberlist. And to clear this also,i wasnt kicked, i elft and joined RC Community, so get ur facts rite Punk.
- 3.I never got kicked out of a Server due to Mod Abuse, i dont have ur Papers in my bag Simon. I modded more Servers then u ever played on, and lets see, all of these Servers are still up except RC who switched over to CSS instead of Ren.
4. I doubt i have any mental issues, im not making fake FB Profiles, im not cheating on Servers, im not banned from any Forums for my Lack of intelignce and def. not for cont. changing my IP And Serials to evade legit Bans on nearly every RenServer out there. So whos got the Issues here, wake up its Reality not ur stupid small MDH@World>@.
5. Ye,i def. suck @ ren that the Reason MDK... ROFL... Im not even going to discuss this with u Nap

Firstly, it isn't a running system. The pre-4.0 anti-cheat was compromised allowing for the use of
undetctable cheats. The new patch disallowing your favorite advantage skins doesn't amount to it
being broken as you fraudulently imply.

Secondly, I would love to see you pull off those suspicious bullshit shots with 4.0 installed on a 4.0

Omygod MDK, you can't expect of me that I would still be defending you and that I would be happy with you after your attacks on the st0rm servers. Your numerous ban evades and other shit you pulled out.

You know what your problem is? It's always the mistake of someone else. But you seem to forget what you did the past few months to the ren communities. If you would've just posted a normal thread here with your apology, would've been much better..

Anyway, it's over now. You are lucky that Wilo is a great guy. I am sure others wouldn't be like him and would've unbanned you after your stunts.

Avoid the problems MDK. Enjoy your time in game.

pains me to say this but eike-dj-eye-k is right tt 4.0 really sux and is not ready for relase to the public.

this file is really killing the game we love . watch your selfs as you see the player numbers fall week by week.

I gave it a try and it sux the endless haveing to remove files or upload others along with the lag and crashes in game.

3.44 with rr worked fine and had all we need im back to that and advise you to all do the same.

now if you check most of the post against this will be by people who wrote 4.0 or mods who aprove it .

MDK - You do realise that as it stands TT(4.0) is currently in a BETA stage so it would only be normal for people to crash. The files you have now are not the finish product.

If you're having crashes then do the decent thing and upload the crash dumps (my documents/renegade/client/debug/*latest_crashdump) so we can fix the issue.

Complaining about things but not helping to fix it doesn't help anyone.

there is no crash dumbs as the game will not even start .?

dude this is not just a attack on 4.0 this is a fact it caused loads of problems. you click to play a quik game and end up haveing to delet files or serach for files to be able to play.
whay can it not do this itself ?

the it waits 3 maps to find it do,s not like you map file and kicks again and ask,s to delet.

then half way throu another map askes you remove a w3d file that you have no idea where to find.. so you have to google or wait in forums 3 hours for a answer to find the file and delete just to want to play for 15 mins 3 hours earlyer lol .

then to top it off it says memmory manger missing so you can not join. ?

like wtf all this to play a game that worked fine for years pre 4.0 .

ok so it is beta and loaded with bugs then why are servers forcing it on people untill it is ready.

and you realy can not say you do not see the player numbers drop over the past week or so ?

Its asking you to delete files or download new maps because

- 1) The server doesn't have your particular skin set as a non advantage skin
- 2) They have edited the map slightly from the original which makes TT download the 'new' version. If you're missing a file then report this error with a SS so we can actually help you.

Play @ atomix. We have a 4.0 server however we don't enforce custom skins/maps/models. As long as you're not banned you should be able to play with 4.0 without any problems.

dude you can defend the 4.0 as you may have intrest in it but all I have said is true.

it is not for me untill it is ready for the public.

is like release a drug and say yes it will kill 2000 people but then we will find the problems with it and fix so it can help 4000 people.

I suggest then making a post saying sorry and maybe they will unban you. I am not a mod at Atomix so I can't remove it myself.

As I said in another topic.. 4.0 isn't FORCED. Its just forced on you because of your past etc.. I dont really want to get into that,

You dont need to worry about virus' or spyware or anything alike... TT doesn;t install any of that so I don't know why you're acting like it does.

The only time Renegade downloads a file is when your file default or edited doesn't match the servers file... Just donwload the new map or w/e and you'll be fine.

MDK@ENGLAND@ wrote on Fri, 23 September 2011 16:48there is no crash dumbs as the game will not even start .?

dude this is not just a attack on 4.0 this is a fact it caused loads of problems. you click to play a quik game and end up haveing to delet files or serach for files to be able to play. whay can it not do this itself ?

the it waits 3 maps to find it do,s not like you map file and kicks again and ask,s to delet.

then half way throu another map askes you remove a w3d file that you have no idea where to find.. so you have to google or wait in forums 3 hours for a answer to find the file and delete just to want to play for 15 mins 3 hours earlier lol .

then to top it off it says memmory manger missing so you can not join. ?

like wtf all this to play a game that worked fine for years pre 4.0 .

ok so it is beta and loaded with bugs then why are servers forcing it on people untill it is ready.

and you realy can not say you do not see the player numbers drop over the past week or so ?

10 in storm all mods or oldies

15 in atomix most mods or olides

only server with full list is jelly none 4.0

I had one problem, and it was a simple fix. Some problems will arise whenever you're in the beta stages of something.

I don't see how you think this is going to "kill" Ren. I was playing in st0rm today and for 3 maps straight, we had 50+ players...

MDK, when I played at st0rm yesterday we had 46 players ingame. Maybe you should join the server more, now you are unbanned again..

Again... good luck, because hopefully servers running 4.0 will add better levels to beef up the game-play a bit so that it isn't always focused on either " A shit load of vehicles sitting at the enemy's entrance firing shell after shell/rocket after rocket getting points off the harvesters or single unit that comes waltzing out"

Or countless n00bcannoners shooting vehicles and spending all game in an area of little to no tactical value battling other snipers.

not really better levels dude time as shown die hard ren fans do not like these new maps.

and costumising your game is one of the things us ren lovers like . but now that is taken away as a cheat or advatage .

custom huds - recticals and skins are what we love and to be made to remove them to play on 1 or 2 servers will drive us to the ones that let us use them .

Have you ever read what you've typed out-load to yourself before posting?

Seriously, read your last post out-load and not just in your head...

:Custom reticles and "skins" with the possible exception of stealth effect and clear scope dds are not blocked by 4.0. You're probably thinking w3d models. There may be a way to allowed certain custom model w3d files like the way RenGuard did.
