That's one of the more worthwhile modifications to have come out of RenForums' 'Mod Forum' in the past three years or so.

I remember when this was released LOL. The youtube video was good for lulz. Imagine a flamer rush with 8 tanks charging the AGT. The sound would be epic.

It would definitely not be epic in any sense of the word. Highly amusing, sure... Epic, no.

Seriously, why

If I recall correctly, Scruffy made this at Jelly.

I couldn't agree more btw, fucking Vuvuzelas are so annoying, as if listening to them during the world cup wasn't bad enough!

Reaver did indeed make it, I just significantly increased the volume using Audacity.

It was fun. Flamer rushes on Jelly-Marathon were rather loud however.

Speaking of annoying noises you should have heard what I had my repair gun set to for a while...

Also AZAZAZAZAZAZEL!

With that triggerbot.
