Everytime I try to start a game it says:

Unable to connect to server....Version Mismatch

I do have version 1.037

Thanks for any help I get!

I do have version 1.037

Thanks for any help I get!

You probaby have some mods, cheats or script in your data folder take them out...

If this persists just re-install Renegade making sure to back up your saves this won't take long.

I'll tell if it works when I get round to trying it
Thanks for your help
