Last time we had someone go off the deep end at Christmas was Loki... will this be series two?

MDK, for your own sake, go and have a mince pie and a lie down. Then when you come back to Renegade, forget about the Jelly servers.

in his own words Jelly doesn't use 4.0 because most of its players are cheaters and it's the only server that still harbors them

i don't know why he would want to play there so badly if that's the truth

he's allowed to play in st0rm, a server that runs 4.0 and has new maps and interesting settings - why can't he be happy there?

It must be terrible not having friends and family to see during the holidays.

He has a family and friends.

Banning Simon is like banning a nublet for sucking. He means no harm. He jus needs to be put into line sometimes as he does tend to go over the top on occasion. If you gave him an actual reason why he was banned instead of this elusive behavior then perhaps he will forget about Jelly and move on.

Surely he deserves to know why he was banned, give him some closure?

i don't think Simon can totally help how he is; to my understanding he has mental issues even so i don't want to put up with his unstable behavior, and i don't want him going off on my players

refer to Wilo and how Simon (MDK) was allegedly harassing his 13-year old sister via facebook

if i donate him \$5 via paypal will he go away?

He does have mental problems unfortunately, I agree that he shouldn't be bothering any players from any community. Perhaps if you send him a pm stating that he's been banned for cheating/annoyance/ToS violation or some crap he'll find closure and be able to move on, then he can play on Ax/st0rm/n00bstories w/o it being in the back of his mind. That would seem the most pro-active step to take in this case. This way, he wont bother the Jelly community, so everyone wins.

Merry Xmas Simon.
