Alright, I'm fixing to restore my laptop tonight, so I'm going to have to reinstall Ren tomorrow. Now, I had problems getting 4.0 to work correctly whenever I first installed it. Now, I'm wondering the best way to go about installing 4.0 from a clean install over Renegade. Should I just install ren then directly after install 4.0 (after the 1.037 patch)? Or do I have to install cp1,2, then 4.0?

I'm sure you can install it directly after the 1.037 patch. I'm not sure but it might also be possible to install it directly, without the 1.037 patch.

TT should install 1.37 among whit the rest of the TT patch in case you didnt upgrade to 1.37 yet.

Though I think patching first is more quick, since you don't have to download always files.

Tbh, it only took me a few minutes to install Renegade and add 4.0. Hardly anytime at all.

. I don't hug, unless extreme circumstances force me to. Which is rare. Now, GTFO.

And leave me alone Xpert. I'm starting to jog.
