over the years i've seen hundreds of ren clips and whatnot
some that i'll never forget are the ones that caught MSGTPain and azazel cheating, and this one
done by a friend of mine

<http://www.youtube.com/watch?v=xlfoZGx6Sv0&feature=colike>

i was actually in this game but in the field at the time - he used afk players to cover his nukes, and
they never found them
i was mad when i saw it later, but then i laughed really hard

i wanted to share that since i found it worthwhile

Black-Cell in 2007. Good times. I have hundreds more where that came from, but I don't have the kind of time to re-upload them all. If only ccfan had bothered to restore the Black-Cell FTP (archive.org snapshot of my portion) after the 2008 crash/attack

Well, maybe later this week I can spend an hour and pick out out a few of the best of the Regs vs. Mods afterparty stuff where the admins turned players into maps and vehicles into toilets, spawned 300 mummies on Islands, and other crazy junk. We'll see.

how could i forget this one

a guy named c4smoke was on ts one day and this kid named robo was talking shit to him for a half hour straight - they started saying they could kick each others asses in real life they found out they live a half hour away from each other, and robo challenged c4smoke to a 1v1 in a CVS parking lot

c4smoke accepted and went there, video taping the entire thing trying to find him

in tribute to c4smoke myself and some other people made a spoof, but instead at a Walgreens
