Since the renegade server i use on XWIS is down i have been playing multiplayer practice to kill time, but it always loads under. is there anyway to do like city flying or any of the other maps. Or is there other servers i can go on because i usually do n00bstories and that is not working right now. any info or ideas would be appreciated. Thanks.

You can modify the svrcfg_skirmish.ini file in the Data folder to use a different map, but it won't have bots. There are other topics around here that say how to do that. Only Under is set up for bots. If you check elsewhere in the forums or on google I'm sure you can find other maps with bots.

If you want... You can still directly connect to some of the servers that are still on, like n00bstories...
