Is there a download for w3dview.exe anywhere? I downloaded the .zip from the Rentools Sourceforge page, but it seems to just be the source... which will not compile on my VS2K10.

It's installed alongside LE if you use the original Westwood installer.

Go to

ftp://ftp.westwood.com/pub/renegade/tools/

And download

[FILE] RenegadeToolsInstaller2.exe. . . Jun 27 2002   24M [DOWNLOAD]

^ That one.

Not sure if this is the version you need.
