I was wondering if there was going to be a fix (or if there can even be a fix) for a cheat that could be used with 4.0? It seems it may be getting abused quite a bit...

Well, depends. As long as we don't know what it is or what it does then it's going to take ages. If we know the former it would still help us if we'd have the cheat ourselves so we make sure we block it.

So maybe, you'd need to send a PM explaining the cheat and such.

Received and we're looking into this. Not sure how to deal with this yet, but we'll find something.
