i've been playing in noobstories for a while and i can safely i'm ashamed to be even sharing the same oxygen as this old fart.

in the space of 2 games he kicks nearly half a server and mutes the rest. he is about as useful as a fart in a spacesuit.

when approaching him about people being racist in server he make it out like it's an absolute chore to even read a screenshot. he mutes me on a regular basis for either defending myself such as said example

Joejjj80: you are so stupid when i looked up your name in the dictionary your face was there

iTaLy: There are no pictures in dictionaries

iTaLy has been muted.

I have no doubt that this man both has anger issues and was probably abused as a child. he takes out his bullying on others and this post is just to bring up the point so it might be taken seriously on a public level, rather than being shunned on the n00bstories forum.

yours sincerely,

iTaLy

It's really a shame that someone as awesome, level-headed, and hard-working as joe has to be subjected to such trolling, and then publicly bashed for doing his job and taking out the trash.

I've gotten the low-down on what you guys pulled on the server and I think you should be ashamed of yourselves for acting like such childish little brats.

Joe doesn't deserved to be bashed here, or anywhere.

he has to have the last word and if you say any cuss word at him or not even at him if you just type out "FUCK" when you get killed or something and joj is in game it equals an auto 24 hour kick or a mute then he wont unmute you ever. And when you rejoin he will just 24 hour ban you for evading this guy has some serious mental issues. ohh and yeah he is allowed to cuss at you and call you a lot of bad stuff but your not to him.

Edit: he even starts arguments with some players and when they are right about something he automatically kicks them.

well Crimson as a player who in the last few weeks has:

- . organized community wars for your people
- . help set up servers for your comm war team
- . a person with vast moderating experience
- . been courteous to most in the server

my opinions will be heard.

You have not been around recently. of course you are going to take his side, he moderates (well that's very debatable) your server and i understand that. you don't see the bad sides of what he does, just the bad sides of what i and others do.

He muted me for a week recently for defending myself in an argument he started with someone else. i used no swear words, nothing like that just straight up honest defending. Furthermore after muting me, Joe makes the biggest deal possible out of it and get on his high horse and makes a big 10 minute speech in the chat box about how good his decision was. But no when i get racially abused in private messages and show him the evidence he doesn't care or show the slightest bit of interest in helping.

i understand you are probably in denial and think that just because your server is up 10 years (congratulations btw) that it's perfect. This however is not the case. I am by no means trolling, if i was you would know. i deliberately came on here to post this rather than getting shot down on your forums by a punch of people who are just going to back up Joe. This is more public and you can see by the feedback stated that i am not the only one who feels the same way. i'm sure you will just continue to ignore it and let us all suffer with Joe, but at least this post got your attention and there are respected people here in the renegade community backing me up

Also the fact you refer to me as thrash is very debatable. You don't know me and i could be anyone, look at both sides before you go on your escapades. and you call Joe level headed? i have never met a man with a shorter temper or as little care as Joe

yours sincerely,

iTaLy

Having observed what has gone on and not gotten involved, I'd still say that Joe isn't a very good moderator. He's far from polite and seems to start ranting to himself at some points, and when one person told him to stop talking and play the game he kicked him.
I'd say that is far from level-headed..wouldn't you?

Also a side comment, most of the bad comments in here are not from the people you criticise. Or are you ignoring those?

he's very hard to work with this joe

what he does is push people and provoke them into defending themselves. when they do defend that's when he hits them right in the face with a nice mute or kick. not everyone on the internet has a thick skin and naturally people defend themselves and get into arguments when insulted. i am sick of this terrible person creating a bad atmosphere in the server and terrorizing others this way.

i have been on the internet long enough to know all kinds of people and how to deal with each kind. sadly not many can say this as most people the joe bans are young and innocent guys just playing the game after a rotten day at school and generally new to the internet. the best way to deal with the likes of this joe is to totally ignore and just focus on the game. it sucks because i like the server. i just play play play and don't bother with the drama joe dishes out. but I can't help the feeling that i am in some sort of dictatorship when playing because you never know that the most innocent thing you might say or even a joke could backfire on you with joe.

crimson, is that the sort of atmosphere you want your players to be in? i am not talking about those regulars who established their names in the server but to the massive numbers of people that populate the server each day in their free time?

btw, this is not my real account. i dare not use my main account. imagine how joe would look at me next time i am in server? to him now i am another silent player (cos i ignore his manipulation) and i like it to be that way. <--- says a lot about the nature of joe doesn't it? the need to use a smurf account to testify against him to avoid repercussions while playing a ten year old game?

Crimson wrote on Thu, 17 May 2012 02:21 It's really a shame that someone as awesome, level-headed, and hard-working as joe has to be subjected to such trolling, and then publicly bashed for doing his job and taking out the trash.

Joe doesn't deserved to be bashed here, or anywhere.

if there's any shame in this thread it's your 3 sentence pack of lies quoted above. a disgraceful pack of lies statement like this that reads like it came from Xinhua isn't gonna work this time around.

the ignoring of the charges, lies and coverups are no longer going to silence those who have borne the brunt of this person's unjustified attacks.

the guy PROVOKES people into fighting him. does that not make anyyy sense to you? there's a big difference between getting a "low-down" by reading logs or talking with your mod on teamspeak versus actually playing the game and being the target of his provocation.

i think just like the jarhead issue you will probably lock or delete this thread and ban anyone who complains more. this will not work anymore.

doesn't bother me in the least as i mentioned before i know how to deal with this kind of individual. but not everyone can censor themselves and strip their own humanity away and turn themselves into a robot like i do to play in your server. sad part is i like gameplay conditions in your server. very much.

will you actually listen to the people who are raising a legitimate concern of your mod's behavior or will you post another Xinhua post?

will you actually keep in mind that i have to use my smurf account here to post these comments about your moderator since i fear the retaliation of him when i am ingame next time? or does such mind-numbing tyranny mean nothing to you? raising concerns about someone who should not be let anywhere near the reins of power = bashing to you? I do agree that those who have posted in this thread have used language that is not appropriate (regarding which I will address to them below) but these are based on the behavior of joe ingame and not some fantasy.

i plead you to reconsider.

Azazel wrote on Thu, 17 May 2012 12:09liquidv2 wrote on Wed, 16 May 2012 23:50i've heard nothing but bad things about both jarhead and this joejjj guy; i have yet to meet either of them in Renegade

listen there disgraced fallen angel, why don't you stop posting? nothing you do or say will erase your criminal history nor will you get anywhere near the reins of power anymore. i hope.

like it or not i got a firsthand account of this joe and have seen him maneuver, manipulate, and provoke innocent players to boil them up to a point of rage just to mute and kick them. this issue will only be settled after the truth will be acknowledged by the NS PTB. or they can choose to ban and delete this thread. on behalf of those he abused and demoralized, i will no longer be silent in this issue.

as advice to people who have borne the brunt of tyranny from joe including the topic starter, i suggest to tone down the language, eliminate ad hominem completely, remove all crude pictures and to make your statements and present your arguments using decent to-the-point posts. a

passionate, clean, and pure line of reasoning will be required to fight this type of injustice. so please first get started on editing your posts and clean-up, please. if we use standards of decency in this debate, it will be difficult for the NS establishment to ignore you or brand you as "bashers"

bear in mind that this is not something against NS or the outstanding server facilities provided to us to enjoy our free time but against the internal corruption of one of the mods and false, immoral Xinhua-type lies being announced by NS to cover it up.

in summary, this situation has arisen because:

-NS moderator Joejjj80 has been for years used cruel manipulation to maneuver unaware and unsuspecting players and provoke them into a fight so they can be muted or kicked.

-a calm smooth peaceful server environment is turned to warfare and strife because of the aforementioned actions of NS moderator Joejjj80.

-the situation is no longer bearable as players all across enjoy the NS server and its outstanding facilities, gameplay conditions, gameplay settings, and that such enjoyment is being corrupted by the tyrannical provoking activities of NS moderator Joejjj80.

posting this on behalf of someone who doesn't wanna be identified.....

Okay I have been playing for a while and I am a very honest player when it comes to things. Joe as a moderator is not needed. I honestly do not know why he chooses to be one when he knows he is going to get into fights. He lives for this stuff. Joe does provoke people into these fights. He always has to have the last say in it. I see it all the time in game. Yes I admit maybe some people are deserving of it and they do start it first. That is only because they either know Joe will come after them or because they are idiots. In saying that, it is always a problem with Joe. There is a trend. Every complaint or issue in n00bstories relates to Joe. The man is just always where the action is at, and he loves it. He loves showing his power and he loves being a dick.

There are times in games when he says he is leaving. Then he continues a fight with someone for the next 10 minutes. Half the time the fights are amongst other people and are not even related to him|. He wants people to bow down to him and say that Joe is right and they are wrong and that he is so such a good mod because he is a hard ass. Mods do not need to be hard asses. Joe says all the time in game, if you are going to be an ass to me, at least stick to it and don't go soft. The thing is Joe, that they can't be a tough guy when you mute or kick them. And for the record,

not everyone that talks to you is a "tweener." Like honestly enough with that bull shit. I don't know why you continue to be a mod or play renegade when you are so stressed from work that you want to take it out on others. If you were well liked in the server, there would not be so many problems.

You are not that good of a player either. You accuse and kick so many people for cheating because they kill you. You are always a terrible sakura or mammoth camper. Most of the time you are a useless sakura, especially in games when tanks are needed. You have no concept for the game at all. Sure you can have fun and snipe but then you bitch to others to do something useful. Anyway back on track here. Below are lists of a bunch of forum post on the n00bstories site all pertaining to Joe. Most of them are recent.

Like I said before, maybe some of those people are at fault, but Joe handles the situation terribly and shows his power along with being a jerk getting the last word. The sad thing is all the mods will back him up and praise how tough he is when it is complete bull shit. They are just afraid to lose their power and be looked down upon in the server. You guys are all at fault and just admit it please. We all know every time Joe is in the server a problem happens. It is a game!! Let people have some fun and have some smack talk. This is not a prison damn it. Sure some control must be initiated but give the people their own fights. The second he jumps into a fight it goes on for the whole fucking map. If Joe would have stayed out of it then the fight would have ended long ago.

n00bstories mods and admins please consider. Just let the guy go. I am sure Joe would love to change his name and just play as a regular player who keeps his mouth shut and does not have to mod his "tweeners." He personally makes it his agenda to get involved in people's business to find out their true motives. JUST PLAY THE GAME!

Yeah, but it's really convoluted to get into, as it's only in Advanced Game Listings (unless it works in the GSA menu, which I've never tried).

The likes of you that have never even played with him have can't really comment on the way he moderates you only have a third hand account, so butt out. He's a fine moderator and I've never seen him go over the top at all. Everyone that's "broken the rules" got what they deserved fully.

Look Azazel, people may value your opinion on things such as homosexuality and suicide, since you have thoroughly explored both fields, but when it comes to the topic of moderating, we don't care what you say. You are a waste of space.

I have no problem with people who talk shit in an online game, I find it quite amusing and will talk shit back. Its fun and when your hand and air or vice versa are dead.

There is really nothing better to do in Ren.

I think it sucks that he talks shit back then mutes when his intellect gets overcome by others. Which it will a lot...

i almost think NS runs their community for their moderators and not the players

it's like a large playground, and the mods run around and hit the other kids with baseball bats then they are defended and the kids told to shut up

it's all ok though, cuz at one point many years ago one of them was a Marine

the people of Renegade, in this topic, are bringing a protected issue to light

a moderator on one of the servers seems to be abusive and unfair to players; what is wrong about addressing such an issue?

another thing happening in this topic is people pointing out that a known cheater/moderator trying to talk about good moderating is really quite silly

there's something wrong with either of these things? if anything it shows the people of Renegade still have the right idea about how things should run

which, coincidentally, does not involve flooding other servers and stalking under-aged girls

Funny how this kind of behaviour from the admin staff was the cause of the exodus breakoff, which was reason for crimson to ban me from renforums

then jarhead banned me simply because i pointed out, when i was a mod at n00bstories, that he abused his commands a lot (and everybody agreed)

then when i complained about it here, i got banned again

And now I see threads about joejj (who is a good guy but really shouldn't be a mod) and jarhead pop up almost every month.

Dare I say: lol.

You probably don't have access to the server owners section. People did reply, but there is little to nothing that could be done considering no one knew who was doing it. To top it all off, he was bringing down his own servers while he was attacking others as a cover up.

Links to patches and WOLproxy was given. And if I recall, when I looked at the WOLproxy st0rm was running, it was nothing more than a relay. It did absolutely nothing lol.

Tiny wrote on Fri, 18 May 2012 17:46

Most of us already know who it was. Does it matter? Are you trying to tell us there are people on the internet that are better than Wilo? Oh my, this is new to me

Tiny, tell us again why you're posting on this topic if you ummm "don't care" about this place? You seem to care enough to post here. You talk as if you don't act like a child yourself. You seem to not have any free will of your own if I last recall. I mean, after you found out Wilo uses you for nothing more than just money, you still continued to be his lapdog and suck on his dick for quite some time.

This topic was made to shed some light on someone that moderates for NS, in this case, Joe on his abusive style of moderating. If you "don't care" about the matter, then simply don't post in this topic. Unless you wanted some attention, in this case, you got it.

He's doing fine as a moderator I've never had many with him so far, I know the rules and you should have known them by now to.

If you had any real problem, it's with the rules.

Part of the rules also include respect for the moderators, I'm willing to bet you had a giant swear spree with him cause you got mad at something YOU did which he responded to correctly by using his moderating powers.

So learn the rules, show some respect and move on.

Anyway, I went into NS to play. Found that joe was ingame. Only thing I had about him was the fact that people would complain to him about cheating, and instead of handling it, (me in this case) he would just tell them to post on the forums.

Someone complained about me with SBH reveal or some shit, and he just told the guy that he was playing and I was using 4.0; if he had problems to post on forums.

4. Coming back, receiving nothing but contempt from anybody he encounters, still stays
5. Goes on doing what he was always doing, licking ns admin arse and not even having an opinion of his own

I think azazel is genuinely the most pathetic person I have ever seen in the renegade community, and that's saying a lot since there are a lot of people in this game who are full-blown psychopaths, including people who drive around a country with a video threatening others over forum comments, child predators and people who want to meet up with mods for sex to get unbanned

Azazel is a nobody, whatever anyone he tries to suck up says, he echoes.

Pathetic.

I was just poking at the "single-handed" bit, Italia.

Just ignore Joe, and stop messing with him. When you first started playing there regularly, there was some incident and I said a few things to him in IRC. He didn't take the advise and just made things worse by blowing it out of proportion and making it escalate further. That's something he shouldn't be doing. Looking back through logs it seems to be a frequent problem.

At any rate, cut your losses, Italy. With the owner backing it you cannot win.

Shai, i never intended to win, just to bring it to attention! the fact i'm muted for a week and everyday joe comes in game he pokes fun at me now is not nice. i ignore him and jut continue to play, but it's just downright bullying.

i know what's right and what's wrong for a moderator, but what he's being doing even recently is wrong

Shark wrote on Thu, 17 May 2012 10:59he's very hard to work with this joe

what he does is push people and provoke them into defending themselves. when they do defend that's when he hits them right in the face with a nice mute or kick. not everyone on the internet has a thick skin and naturally people defend themselves and get into arguments when insulted. i am sick of this terrible person creating a bad atmosphere in the server and terrorizing others this way.

i have been on the internet long enough to know all kinds of people and how to deal with each kind. sadly not many can say this as most people the joe bans are young and innocent guys just playing the game after a rotten day at school and generally new to the internet. the best way to deal with the likes of this joe is to totally ignore and just focus on the game. it sucks because i like the server. i just play play play and don't bother with the drama joe dishes out. but I can't help the feeling that i am in some sort of dictatorship when playing because you never know that the most innocent thing you might say or even a joke could backfire on you with joe.

crimson, is that the sort of atmosphere you want your players to be in? i am not talking about those regulars who established their names in the server but to the massive numbers of people that populate the server each day in their free time?

btw, this is not my real account. i dare not use my main account. imagine how joe would look at me next time i am in server? to him now i am another silent player (cos i ignore his manipulation) and i like it to be that way. <--- says a lot about the nature of joe doesn't it? the need to use a smurf account to testify against him to avoid repercussions while playing a ten year old game?

Crimson wrote on Thu, 17 May 2012 02:21 It's really a shame that someone as awesome, level-headed, and hard-working as joe has to be subjected to such trolling, and then publicly bashed for doing his job and taking out the trash.

I've gotten the low-down on what you guys pulled on the server and I think you should be ashamed of yourselves for acting like such childish little brats.

Joe doesn't deserved to be bashed here, or anywhere.

if there's any shame in this thread it's your 3 sentence pack of lies quoted above. a disgraceful pack of lies statement like this that reads like it came from Xinhua isn't gonna work this time around.

the ignoring of the charges, lies and coverups are no longer going to silence those who have borne the brunt of this person's unjustified attacks.

the guy PROVOKES people into fighting him. does that not make anyyy sense to you? there's a big difference between getting a "low-down" by reading logs or talking with your mod on teamspeak versus actually playing the game and being the target of his provocation.

i think just like the jarhead issue you will probably lock or delete this thread and ban anyone who complains more. this will not work anymore.

doesn't bother me in the least as i mentioned before i know how to deal with this kind of individual. but not everyone can censor themselves and strip their own humanity away and turn themselves into a robot like i do to play in your server. sad part is i like gameplay conditions in your server. very much.

will you actually listen to the people who are raising a legitimate concern of your mod's behavior or will you post another Xinhua post?

will you actually keep in mind that i have to use my smurf account here to post these comments about your moderator since i fear the retaliation of him when i am ingame next time? or does such mind-numbing tyranny mean nothing to you? raising concerns about someone who should not be let anywhere near the reins of power = bashing to you? I do agree that those who have posted in this thread have used language that is not appropriate (regarding which I will address to them below) but these are based on the behavior of joe ingame and not some fantasy.

i plead you to reconsider.

Azazel wrote on Thu, 17 May 2012 12:09liquidv2 wrote on Wed, 16 May 2012 23:50i've heard nothing but bad things about both jarhead and this joejjj guy; i have yet to meet either of them in Renegade

The likes of you that have never even played with him have can't really comment on the way he moderates you only have a third hand account, so butt out. He's a fine moderator and I've never seen him go over the top at all. Everyone that's "broken the rules" got what they deserved fully.

listen there disgraced fallen angel, why don't you stop posting? nothing you do or say will erase your criminal history nor will you get anywhere near the reins of power anymore. i hope.

like it or not i got a firsthand account of this joe and have seen him maneuver, manipulate, and provoke innocent players to boil them up to a point of rage just to mute and kick them. this issue will only be settled after the truth will be acknowledged by the NS PTB. or they can choose to ban and delete this thread. on behalf of those he abused and demoralized, i will no longer be silent in this issue.

as advice to people who have borne the brunt of tyranny from joe including the topic starter, i suggest to tone down the language, eliminate ad hominem completely, remove all crude pictures and to make your statements and present your arguments using decent to-the-point posts. a passionate, clean, and pure line of reasoning will be required to fight this type of injustice. so please first get started on editing your posts and clean-up, please. if we use standards of decency in this debate, it will be difficult for the NS establishment to ignore you or brand you as "bashers"

bear in mind that this is not something against NS or the outstanding server facilities provided to us to enjoy our free time but against the internal corruption of one of the mods and false, immoral Xinhua-type lies being announced by NS to cover it up.

in summary, this situation has arisen because:

-NS moderator Joejjj80 has been for years used cruel manipulation to maneuver unaware and unsuspecting players and provoke them into a fight so they can be muted or kicked.

-a calm smooth peaceful server environment is turned to warfare and strife because of the aforementioned actions of NS moderator Joejjj80.

-the situation is no longer bearable as players all across enjoy the NS server and its outstanding facilities, gameplay conditions, gameplay settings, and that such enjoyment is being corrupted by the tyrannical provoking activities of NS moderator Joejjj80.

Nice post but it's a shame Crimson doesn't have a response to the real meat of this post.

Admittedly, I haven't been there or witnessed any of the bans / mutes / mod abuse take place recently, but I will say this.

Maybe if Renegade was alive and thriving, this wouldn't matter as much.

I think mods at present should only be coming down on cheaters, people not following server specific rules, racism / over the top abuse and TH.

I think this guy has power trip problems, and the player base does not need to reduce more than it already has. Granted if someone is calling a moderator a 'fucking n1gger' 3000 times, ban his ass without question.

A little smart-assery should slide.

Crimson wrote on Mon, 21 May 2012 20:40The logs don't show what led up to that. Internet trolling is bad, kids.

It doesn't matter Crimson, it really doesn't matter. A moderator should be mature, and above those things, keep his cool, and not care. A moderator is there for the players, not him/herself. Using your powers to "win" your arguments or to silence someone simply because you don't agree (rather than because that person actually bothers players and interferes with gameplay) is not good moderating, no matter how much you are being trolled or annoyed.

Don't get me wrong, joejjj is a great guy and I've always gotten along well with him, but he should not be a moderator simply because he is one of those people who don't tolerate any back talk, which can only lead to bad and impulsive decisions.

It's not good to have a moderator like that who lashes out at people at random, because he has an authority issue, when you have a game that's barely managing to survive at this point. At this point, there are only two or three major servers where people play, and any moderator abuse only kills the game faster and faster. In the past, when Ren was still very much alive, it was a server's own business what they did, since players could just move on to others, now they don't really have that option when they are used to that one server they play in.

Therefore the community has MORE than a right to complain about individual server moderators here, mainly because their impact on the game is FAR greater than in the past. In the past a moderator would only affect 1 out of 100 players with his actions in a server, now it's closer to 1 out of 3, 1 out of 2.

If you are supposedly some kind of representative of Westwood/EA (seeing as you seem to own

these forums) then do your job and take action.

I don't represent Westwood or EA. LOL! I don't personally supervise the moderators on the server, but the ones who do have shown me logs and reports of what these players did to deserve those mutes/kicks/etc. Massive trolling and disrespect despite being repeatedly asked to stop. The people who volunteer to moderate the server have a tough job to do, and when people choose to insult, abuse, and disrespect those people, we have very little tolerance for it.

So keep whining on here and trying to drum up support for your cause, but people here should realize they are only seeing the results, not what they did to deserve the punishments laid out.

ehh's logs there just show how aggressive joe can be with his powers. Fair enough he was testing joe slightly but that can't be said for the rest of us who just defend ourselves and get muted because joe can't either take a joke or take the fact that people (like myself) will stand up to him.

Fortunately Crimson i have better things to do than "troll moderators" so please don't include all of us into your little charade. There are times in game where i will be just chatting with someone i haven't seen in a while or whatever and joe will butt in and say something smart, i in response will crack a joke at his response or outwit him (which isn't hard) and i will get muted. I never get personal with him and he either can't take a joke or craves starting and ending arguments by using and abusing his powers.

Just thinking back to one of my first mutes (so see if this is fair). i said i was from Compton to a guy in noobstories who happened to go to a university nearby in LA, later on an irish guy from Jelly (Toad) joined the game. i then said i lived in ireland (which i do) to which joe says "oh my relatives are from the city of Shannan in ireland". i correct him by telling him there is no such city (which there isn't) so he takes offence saying "how would you know, first your from compton, now your from ireland, choose a place already" he then proceeds to mute me and tells me he's not in the mood for my shit. i would like to know how that is deemed a mute and how fair that is please!

This is my last post on this topic because it's going nowhere and blatantly obviously nothing is going to change.

If you say so. I've been running servers for Renegade for 10 years. It's not my life. Funny, when you were a mod, you wanted more delegation of responsibility, and now you're insisting I do everything myself. Funny how you only care about what suits you. I'm pretty sure I would have taken my own life by now if I was still watching the server every day for 10 years.

I think what people are getting at is by this topic being here, you're supposed to acknowledge that something is wrong, and we don't literally mean you should micro manage all the mods.

I'm sure your mods won't be butt hurt if you drop them a PM telling them to act more responsible, not like ass bandits that make themselves feel more superior by taking away peoples powers then lashing out at them.

crushu06 is great mod at n00bstories. I dont play to much ren but he is cool guy when i see him. Always gets involved and has fun

yea I play with crush06 all the time he is a really nice guy. I was mostly referring to jarhead and joe. I'm just tried of seeing complaints about mods at n00bstories on this forum. Most of the complaints are trivial. People getting mad because they where banned or kicked but when it's more then one mod it concerns me.

Yes, if you can't see the proportion of complaints about joe and jarhead specifically both OFF and ON the n00bstories forums, you're clearly off the ball.

in the kozar dude's defense, it's people like c0vert7 that got kicked
i don't even know kozar and i'm on his side on that one

there's retards like c0vert on every server, and when their moods dictate it they push limits to get muted or kicked
then they make a big deal about getting muted or kicked - it's little kid behavior, if you think about it
some people just never move past that mental age

Yeah, but it's really convoluted to get into, as it's only in Advanced Game Listings (unless it works

in the GSA menu, which I've never tried).

i don't even know kozar and i'm on his side on that one

there's retards like c0vert on every server, and when their moods dictate it they push limits to get muted or kicked
then they make a big deal about getting muted or kicked - it's little kid behavior, if you think about it
some people just never move past that mental age

Actually pretty sure he was wasted because he banned a guy for being afk, banned another guy for talking to another guy in PM, banned me for calling him my bitch a few of which are usually respectable players beyond my name.

But I rarely get muted or get out of hand so not sure why your directing all your rage at me. But im glad knowing you think about me.

His reply wasn't "rage"; what the fuck. Do you just assign emotions to words? "He said something I don't like! It's rage!"

i don't even know you and i think you're an idiot

the few times i've played with you you came off as one of the spazzy chat spamming kids that gets into trouble due to boredom or something along those lines

the difference between you and them is that the vast majority of them aren't also past cheaters

what makes you think i'm angry? i'm just being honest lol

no animosity or rage in the slightest; i'm quite calm, dear friend

if i were angry i'd clearly be typing in an angry colorrrrrrrr!

Well as I said above,I rarely get myself into trouble. I think ive been muted like 2 times in the past 2 years. qkicked maybe about the same and kicked I think once. So I dont see how I get my self into trouble.

Usually a calm person isn't slandering everyone they dont like at a drop of a dime. Clearly you have some vendetta against me, maybe I hurt your feelings at some point? I dont know, ive never played a game against anyone using your name. Maybe its your personal habit to just hate against anyone who defies what you think.

however, from what i've observed, you're more of a nuisance than a player
you don't have to agree with me, nor do i have to agree with you

i might think more highly of you if you weren't also a cheater

Clearly you don't learn, racism is still very offensive.

You are offensive and -removed- has become such a commonplace word that it isn't even remotely racist anymore, especially not when spouted out with other random words, humerously.

Bitch is a misogynistic word, just as offensive to women as -removed- is to blacks, when it's ACTUALLY MEANT. People should be banned from saying bitch, and faggot too for good measure because that's offensive to the gays.

Oh no, soon we'll have to ban every single word!

Can't really be proud of that for a few reasons

1. He is mainly an AOW player

2. How long have you been sniping, entire rene-career?

Trist has probably been sniping for about 5-6 months after coming back to Ren from other stuff, even then at first renegade was an occasional thing.

I have done a few times in Ax, hugging on that Egyptian tunnel style map is fun.

Were you playing with anyone good? I doubt it was with Xpert, Vinny, me or anyone else worth noting.

I played against Vinny on islands and won, fyi.

Crimson, Kozar, Jarhead, luv2pb, and andr3w were all active in 2007, so categorizing the staff then as good is a bit of a stretch.

Crimson barely did ANYTHING in 2007, Kozar was sporadcially active, but we cleaned up pretty quick after him

First thing I did when I became a mod was make a thread in mod forums about how Jarhead was !forcerg'ing the living shit out of everyone who killed him more than once, and was sending people threatening PMs and shit. Everybody unanimously agreed, except Jarhead of course who said "I was just stirring up shit for the hell of it."

After that he toned it down a bit too, that is until I left and a bunch of other mods went with me after Crimson let people at n00bparty delete enemy vehicles with modtools and gave known cheaters mod powers and shit like that. After that Jarhead reverted to his natural self and started muting me and kicking me whenever for really no reason at all. When he gave me a 24 hr kick because he didnt like the name I was using, and gave a 24hr kick to my mate who I was playing with who complained about it, I made a complaint thread on the forums which he instantly deleted. After that he banned me lol. Talk about holding a grudge.

luv2pb was sort of alright back then. He had a thing with Kytten and kept giving her admin powers and shit, which didn't make either of them loved. Then he bought a plane ticket to the UK to go bang her and she cancelled at the last minute, then fucked off from the community pretending to have cancer. After that he also didnt interfere much and just let us do our jobs, until n00bparty lol.

Andr3w was actually a great guy. He made a fuckload of modtools and scripts for IRC that made moderating a breeze, automatically highlighting your name that came up in any of the servers in a PM and stuff. He hated cheaters with a passion and went off quite strongly against them.

I started playing Renegade in Spring 2006 and had stopped playing initially by Fall 2007 (before resuming it now), and while Crimson wasn't frequently ingame, she was still involved in the administration of the server. To be honest, I don't remember you, so if you want to refresh my memory go ahead.

I had many issues with Kozar, and while his hilariously inappropriate moderating decisions were usually corrected, the fact that he was allowed to keep his authority is indictment enough of the server ownership at this time. Nepotism really shouldn't override competence, at least not if you want to pretend that your server is a good place to play Renegade. (Aside from the nepotism, this applies equally to Jarhead; it's laughable that he's maintained any position of power.)

I know that andr3w's has contributed much to the Renegade community, but he wasn't a very good moderator. He was always a huge dick to me for no real reason. (I also believe the same applies to luv2pb; I hadn't heard anything about the Kytten thing, but it sounds like that didn't affect how he treated people on the server.)

Finally, I hadn't even intended to bring up the "exodus" from n00bstories (which I've learned included most of the good mods like mrhero and phazon.) I didn't think that or the lessons

contained therein needed to be revisited.

You seem to be implying that killing innocent people outside of your own country for the benefit of a corrupt government is something to be applauded and admired. Marines are nothing more than assassins that just serve the interests of an employer so powerful, that they aren't considered criminals.

Whatever supposed "heroics" a marine might do, is still in service of a government that is willing to let innocent civilians die so they can try and control the oil market, depose leaders they don't like under false pretences AND interfere with the lawmaking of countries to shape them to the what they desire.

Add to top of that that marines always seem to have this "LISTEN TO ME OR PAY THE PRICE" attitude.

There is nothing admirable whatsoever about a murderer.

i'm bashing the fact that it's not even close to relevant to Renegade and yet he displays it proudly like a trophy

there's lots of ways to help out society, but very few that people use as personal leverage in some way

just because MUDKIPS supports dictatorships and is against those that try to offset them doesn't mean i agree with him; if jarhead indeed was a marine, good for him

that has jack shit to do with Renegade, however, and might be one of the reasons so many people complain about him as a moderator

still haven't met the guy so i can't say either way, but i've seen overwhelming support against him compared to the two people for him (one being Azazel, so that basically nulls both of them out)

As much as id love to debate politics with you they are all just opinions and your entitled to them, 'Merica.

As for jarhead displaying his pride for being a marine it seems relevant as he was a marine and he plays renegade. Most people here have interest outside of renegade and like to share information or talk about them.

Maybe the reason you see the "overwhelming support against him" is because this is just one big forum clique that starts trends.

Clearly you cant think for yourself judging by the fact anytime someone says anything to you, 30 people have to jump in on that person to help you out. It says alot about you bashing someone you have never even talked to lol.

like i said, i can't say either way because i myself haven't had a run-in with Mr. Marinehead

It's really simple. Jarhead plays several hours a day. He's also an admin. Therefore, if someone fucks off in the server and deserves a kick or ban, the mathematical likelihood that he'll be the one to do it is much higher than any other of the NS staff.

It's just simple math.

The mathematical likelihood that he'll be the one to kick someone is due to the fact that he's got retardation when it comes to moderating a server.

Yes a 6,000 SQ foot house built in the company I work at is just around \$300,000 throw in \$50,000 for 15 acres of land, how much does 1 lot in florida cost?

My mom and dad live in a decent house in a crappy town with lil value to property. They had a nice acreage until the economy crashed and my dads buisness went under ^^ So add in those factors it doesn't take much to value over their house.

Lifted soon ^^

c0vert7 wrote on Mon, 16 July 2012 16:10 Yes a 6,000 SQ foot house built in the company I work at is just around \$300,000 throw in \$50,000 for 15 acres of land, how much does 1 lot in florida cost?

My mom and dad live in a decent house in a crappy town with lil value to property. They had a nice acreage until the economy crashed and my dads buisness went under ^^ . So add in those factors it doesn't take much to value over their house.

Lifted soon ^^

holy fuck what a complete waste of money

Well in iowa terrain, trucks are about your best bet. Dodges are ugly, only nice ford is the raptor if you dont mind 6mpg. So I went with the silverado, seemed like a good investment to me, but go on.

You seem to be implying that killing innocent people outside of your own country for the benefit of a corrupt government is something to be applauded and admired. Marines are nothing more than assassins that just serve the interests of an employer so powerful, that they aren't considered criminals.

Whatever supposed "heroics" a marine might do, is still in service of a government that is willing to let innocent civilians die so they can try and control the oil market, depose leaders they don't like under false pretences AND interfere with the lawmaking of countries to shape them to the what they desire.

Add to top of that that marines always seem to have this "LISTEN TO ME OR PAY THE PRICE" attitude.

There is nothing admirable whatsoever about a murderer.

I picture you in a tin hat sitting on a street corner babbling about conspiracy's and shit, you should be fucking grateful for the work that the likes of the US do to ensure America's and Europe's safety.

Fucking retard.

Smoking all that cannabis will do that to your brain though I guess.

you really have no concept of reality do you? Pick up a book every now and then or watch a documentary. I am sure you're happy to sit around smoking weed and whacking off all day to gay porn but there's a whole world out there full of greedy people and sinister subversive plans. The corporate world has long since taken over and they are on the march to eliminate privacy everywhere and clamp down on your liberties. Things are happening whether you like it or not and very fast. If you want to close your eyes then at least keep your mouth shut. But don't ever accuse someone of being a tin foil hat wearer when they are more aware of reality than you ever will grasp in your entire wasteful lifetime.

Still, can't be arsed with his sub-70 IQ.

I've been in the armed forces so I probably have a better concept of reality than you do, sir. I haven't touched cannabis since my teens, unlike most of the Dutch. Of course there's corrupt people everywhere, but the armed forces do a very good job and anyone who disagrees with that have some serious mental issues of their own and is incredibly disrespectful. Or as the American's like to call them "Communists".

Oh and fuck yeah gay porn. It kinda fits joining the navy, wouldn't you agree?

you dumbest mother fucking retard

Major General Smedley ButlerI spent 33 years and four months in active military service and during that period I spent most of my time as a high class muscle man for Big Business, for Wall Street and the bankers. In short, I was a racketeer, a gangster for capitalism. I helped make Mexico and especially Tampico safe for American oil interests in 1914. I helped make Haiti and Cuba a decent place for the National City Bank boys to collect revenues in. I helped in the raping of half a dozen Central American republics for the benefit of Wall Street. I helped purify Nicaragua for the International Banking House of Brown Brothers in 1902-1912. I brought light to the Dominican Republic for the American sugar interests in 1916. I helped make Honduras right for the American fruit companies in 1903. In China in 1927 I helped see to it that Standard Oil went on its way unmolested. Looking back on it, I might have given Al Capone a few hints. The best he could do was to operate his racket in three districts. I operated on three continents.

i am doing dead marines a big favor by reminding dumb fucks like you who and what really they are dying for. pinheads like you make them die while you sit on your sweaty asscrack back home thinking they are dying so you can play a fucked up game.

get the fuck out

i dont know about you guys but im happy that losers, ex-criminals, dumbasses and tough guys are dying so gas prices stay low

also nice to have two countries cleared of terrorism for the most part

useless faggots die or suffer severe trauma they'll carry for the rest of their lives, gas prices stay low, we got extra bases over there and two countries are terrorism free mostly. it's a win-win situation for everyone
