I was just logging into some server forums for old time sake, but couldn't manage to find TLS.

I can only assume it went down, a long with the website.

Anyone know why? (apart from Rene is dying)

Used to be managed by Ozbourne, Lisaaaa, DJ-EYE-K or something like that.

Any info appreciated.

Eric or Ozzy couldn't afford the server anymore and he was jobless so he closed it down for a bit until he got a job. Now he got a job but is too busy to open and maintain a server. Lisa still trolls around Renegade.

Actually that's only part of the reason why it was closed down. Ozzy was sick and tired of his admins feuding all the time - no one helped provide donations to the server either. Every few weeks there would be a huge flame fest on the forums involving 3 or more mods. Basically it never worked out, so he closed down the server. I don't blame him tbh.

Actually you're very mistaken. I resigned there long before it closed down, as I couldn't be arsed with the petty bickering + I loathed p0wershot.

It was still better than tmx. Some of the immature mods made it bad, but the regulars were the ones that mattered.

Eric and Lisaa decided to close the Server cuz there were more important things in their Life to take care of. We still have a few Members playing Ren on AOW Servers, f.e. Lisaa,Yolp,Me, Protos and a few others. We are still in hope that the personal Situation around the Owner gets better so we can rehost it,but i cant tell u if or when that happens,sorry

if the PS3 network suddenly stopped working forever you'd see 1337 come back fairly quickly
