ban and kick this player always, I just got done playing on Devs H0use. every round he always helped the enemy team, either by telling them the game plan or by repairing enemy tanks and buildings. it sounds funny at first but to continue to intentionally screw your teammates is bogus. (I actually was on other team and gave up my Stank when he started repairing it because I thought it was unfair.)anyway ban and kick this N00b.and oh yeah, KANE LIVES!

Sorry, I just found out that his PWord was hacked and it was really a member of WSE messing up the game.

Yes I was so mad at this guy and thought it was really unfair to his own team that he was repairing

me while I was trying to kill him so I just jumped out and said "I quit you are being bogus to your team."

shoulda let him finish then run his little butt over. Show him exactly how grateful you are for the point you get for killing him.
